Approved by Order No. 191 of the Government of the Republic of Kazakhstan dated April 7, 2016

Rules of passing polygraph testing by candidates for judges

- 1. These Rules of passing polygraph testing by candidates for judges (hereinafter -the Rules) are developed in accordance with paragraph 4 of Article 15 of the Law of the Republic of Kazakhstan dated December 4, 2015 "On the Supreme Judicial Council of the Republic of Kazakhstan" (hereinafter the Law) and define the procedure of passing a polygraph test by persons who successfully passed the qualification test for a judge.
 - 2. Basic concepts and terms used in these Rules:
- 1) polygraph a technical device intended for recording during a person's poll the dynamics of physiological reactions (breath, cardiovascular activity, skin and galvanic reaction, physical activity, facial expressions and other things) in response to verbal and visual stimuli displayed in analog and / or digital form;
- 2) polygraph examination a survey procedure consisting in registration by means of special medical sensors of individual physiological reactions of a person during psychophysiological survey;
- 3) polygraphologist- a person who has undergone corresponding training and holds a document (certificate, diploma, license) confirming his right to conduct a polygraph testing.
- 3. Polygraph testing (hereinafter -testing) shall be taken by persons who successfully passed the qualification test for a judge position.

- 4. The main purpose of testing shall be obtaining additional information and checking accuracy of the information communicated by the candidates for judges (hereinafter examined persons).
- 5. The examined persons undergo survey at the National Security Committee of the Republic of Kazakhstan on referral of the Supreme Judicial Council of the Republic of Kazakhstan (hereinafter the Council) in accordance with Appendix 1 to these Rules.
 - 6. The main tasks of the testing are indicated in paragraph 2 of Article 15 of the Law.
- 7. The examination is carried out by a polygraphologist using a polygraph and consists of a number of successive stages:
 - 1) pre-test conversation with the examined person;
 - 2) testing of the examined person;
 - 3) pronouncement of the conclusion.
- 8. The testing shall be conducted in the state or Russian language at the request of the person under examination and shall exclude the tested person feeling humiliated or insulted.

If necessary, an interpreter is provided.

- 9. Before conducting the test, the polygraphologist shall first examine the available materials, if necessary study the medical documents submitted by the examined person on the health condition of the examined person and consult with relevant specialists of medical institutions.
 - 10. Pre-test interview with the examined person shall include:
 - 1) explanation of the rights of the examined person, and also the tasks of the examination;
 - 2) acquaintance with the polygraph and its operation;
 - 3) discussion and adjustment of questions;
- 4) identification and fixing of evasiveness in responses, nervousness, inadequacy of behavior and speech.
- 11. When passing the test, the examined person shall fill out a declaration on polygraph examination (hereinafter the declaration), consisting of two parts according to the form of Appendix 2 to these Rules. The first part of the declaration is completed before testing, the second part of the declaration after testing.

The examined persons, who are in poor health at the time of testing, shall inform the polygraphologist before the testing start and indicate it in the declaration. In this case, testing of such persons shall be carried out at another time during this day or on another day, while the transfer due to poor health shall be allowed no more than two times within ten calendar days.

Besides, the examined person shall not be admitted to testing in the following cases:

1) a sharp exacerbation of the disease associated with a violation of the cardiovascular or respiratory activity (the examined person shall be provided with corresponding medical conclusion);

- 2) when the examined person is in a state of alcohol or drug intoxication or in the presence of residual intoxication effect;
 - 3) in the evidence of pregnancy.
- 12. During the testing, its audio and video recording shall be made, of which the examined person is notified.
- 13. The uninterrupted testing of the examined person shall not last more than 120 minutes. To reduce the load during the testing, the examined person shall be given a rest of up to 15 minutes.

At the same time, workload on one polygraphologist should not be more than two people a day for examination.

14. The examined person shall be tested in the premises specially fitted out for this purpose.

The main requirements for the premises shall be:

- 1) an area of at least 10 square meters, the ceiling height of at least 2.5 meters;
- 2) neutral and soft colors of the walls and ceiling, providing an appropriate sound insulation level;
