№ 1092 of the Minister of Finance
of the Republic of Kazakhstan
of December 19, 2018

Rules for the preparation of a standard audit file Chapter 1: General provisions

1. These Rules for Preparation of a Standard File of Audit (hereinafter referred to as the Rules) are developed in compliance with paragraph 2 of Article 150 of the Code of the Republic of Kazakhstan dated December 25, 2017 "On Taxes and Other Obligatory Payments to the Budget" (the Tax Code) and define the procedure for preparation of a standard audit file.

2. A standard audit file is the accounting data of a taxpayer (tax agent) in an electronic format that allows to make analysis through the information systems of the tax authorities.

Chapter 2: Procedure for drafting a standard audit file

3. For the purposes of these Rules, the format that allows to make analysis through the information systems of tax authorities shall be "xml".

4. The standard audit file shall have a tree-like structure and shall consist of sections marked with a single sign.

The section shall include data divided into seven levels. Each level shall be indicated by a number of digits separated by a dot in the number of digits corresponding to the indicated level.

The fields in the standard file shall be filled in according to the data format as per the appendix to this Regulation.

5. The preparation of a standard audit file shall be performed automatically by unloading it from the taxpayer's (tax agent's) accounting information system.
