

On approval of qualification requirements for carrying out activity on development, production, repair, purchase and sale of ammunition, weapons and military equipment, spare parts, components and devices to them, as well as special materials and equipment for their production, including lay-down, adjustment, modernization, installation, use, storage, repair and service maintenance and a list of documents confirming compliance with them

Unofficial translation

Order of the Minister of Digital Development, Defense and Aerospace Industry of the Republic of Kazakhstan dated April 24, 2019 №53/RD. Registered in the Ministry of Justice of the Republic of Kazakhstan on April 26, 2019 № 18594.

Unofficial translation

In accordance with sub-paragraph 1-1) of paragraph 1 of Article 12 of the Law of the Republic of Kazakhstan dated May 16, 2014 "On Permits and Notifications", **I ORDER:**

1. To approve the attached qualification requirements for carrying out activity on development, production, repair, purchase and sale of ammunition, weapons and military equipment, spare parts, components and devices for them, as well as special materials and equipment for their production, including lay-down, adjustment, modernization, installation, use, storage, repair and service maintenance and a list of documents confirming compliance with them.

2. Recognize as invalid the order of the acting Minister for Investment and Development of the Republic of Kazakhstan dated January 28, 2016 №113 "On approval of qualification requirements for carrying out activity on development, production, repair, purchase and sale of ammunition, weapons and military equipment, spare parts, components and devices for them, as well as special materials and equipment for their production, including lay-down, adjustment, modernization, installation, use, storage, repair and service maintenance and a list of documents confirming compliance with them" (registered in the Register of state registration of regulatory legal acts №13484, published on April 19, 2016 in the legal information system "Adilet").

3. The Department of development of military-industrial complex of the Ministry of Digital Development, Defense and Aerospace Industry of the Republic of Kazakhstan in the manner established by the legislation shall ensure:

- 1) state registration of this order in the Ministry of Justice of the Republic of Kazakhstan;
- 2) within ten calendar days from the date of state registration of this order, sending its copy in the Kazakh and Russian languages to the Republican state enterprise on the right of economic management "Republican Center for Legal Information" for official publication and inclusion in the Standard control bank of regulatory legal acts of the Republic of Kazakhstan;

3) placement of this order on the Internet resource of the Ministry of Digital Development, Defense and Aerospace Industry of the Republic of Kazakhstan after its official publication;

4) submission of information on implementation of measures provided for in subparagraphs 1), 2) and 3) of this paragraph to the Legal department of the Ministry of Digital Development, Defense and Aerospace Industry of the Republic of Kazakhstan within ten working days after the state registration of this order in the Ministry of Justice of the Republic of Kazakhstan.

4. Control over execution of this order shall be assigned to the supervising Vice-Minister of Digital Development, Defense and Aerospace Industry of the Republic of Kazakhstan.

5. This order shall be enforced upon expiration of twenty-one calendar days after its first official publication.

Appendix 1
 to the qualification requirements
 for implementation of activities
 for development, production, repair,
 purchase and sale of ammunition,
 weapons
 and military equipment, spare parts,
 components and devices for them, special
 materials, equipment for their production,
 including assembling, commissioning,
 modernization,

installation, use, storage, repair and
maintenance,
and a list of documents confirming
compliance with them

Information form for qualification requirements for implementation of activities for development, production, repair, purchase and sale of ammunition, weapons and military equipment, spare parts, components and devices for them, special materials, equipment for their production, including assembling, commissioning, modernization, installation, use, storage, repair and maintenance and a list of documents confirming compliance with them

1. For the subtype of activities for development, production of ammunition, weapons and military equipment, spare parts, components and devices for them, special materials, equipment for their production, including assembling, commissioning, modernization, installation, use, storage, repair and maintenance, the following is needed:

1) the head or deputy head of a legal entity, including the head or deputy head of a branch
, as

well as an individual carrying out a licensed type of activity has a higher technical education:

surname, first name, patronymic (if any)

_____;

position

_____;

number and date of the appointment order

_____;

major discipline

_____;

number and date of issue of the diploma of higher technical education

_____;

name of the higher educational institution that issued the diploma

_____;

2) the qualified specialists with appropriate technical education, work experience of at least

one year in the specialty:

surname, first name, patronymic (if any)

_____;

position

— ;
number and date of signing of the appointment order

— ;
work experience in the specialty

— ;
major discipline

— ;
number and date of issue of the diploma of higher technical education

— ;
name of the higher educational institution that issued the diploma

3) an industrial and technical base located on the property right, fenced, isolated, located at a safe distance from residential, public and industrial facilities provided for by current regulations, meeting the requirements of regulatory legal acts in the field of sanitary and epidemiological welfare of the population, fire safety and including:

a specialized production building

— ;
equipment, stand, lifting mechanism

— ;
a specially equipped territory and a room for storing and conducting controlled tests of developed and manufactured products

— ;
number and date of issue of the diploma of higher technical education

— ;
name of the higher educational institution that issued the diploma

3) an industrial and technical base located on the property right, fenced, isolated, located at a safe distance from residential, public and industrial facilities provided for by current regulations, meeting the requirements of regulatory legal acts in the field of sanitary and epidemiological welfare of the population, fire safety and including:

a specialized production building

— ;
equipment, stand, lifting mechanism

— ;
a specially equipped territory and a room for storing and conducting control tests of the developed and manufactured products

_____;

office space for accommodation of staff _____;

cadastral number of immovable property (location) _____;

information about the presence of fencing, insulation, distance from residential and industrial facilities, in meters _____;

4) measuring instruments that meet the operating conditions and the requirements of the legislation on ensuring the uniformity of measurements established for them:
information about the availability of measuring instruments _____;

number and date of the certificate of verification of the measuring instrument _____;

5) instructions approved by the head of the organization for the safe conduct of work on development and production:
information about the availability of instructions approved by the head of the organization for the safe conduct of work on development and production _____;

6) a log on accounting and storage of materials, semi-finished products (blanks), component parts, finished and defective products:
information about the availability of a log for accounting and storage of materials, semi-finished products (blanks), component parts, finished and defective products _____.

2. For the subtype of activities for the repair of ammunition, weapons and military equipment, spare parts, components and devices for them, special materials and equipment for their production, including assembling, commissioning, modernization, installation, use, storage, repair and maintenance, the following is needed:

- 1) the head or deputy head of a legal entity, including the head or deputy head of its branch, as well as an individual carrying out a licensed type of activity, has a higher technical education:

surname, first name, patronymic (if any)

position

number and date of the appointment order

major discipline

number and date of issue of the diploma of higher technical education

name of the higher educational institution that issued the diploma

2) qualified specialists with appropriate technical education, work experience of at least one

year in the specialty:

surname, first name, patronymic (if any)

position

number and date of signing of the appointment order

work experience in the specialty

major discipline

number and date of issue of the diploma of higher technical education

name of the higher educational institution that issued the diploma

3) an industrial and technical base on the basis of the right of ownership, fenced, isolated, located at a safe distance from residential, public and industrial facilities provided for by

current regulations, meeting the requirements of regulatory legal acts in the field of sanitary and epidemiological welfare of the population, fire safety and including:

a specialized production building, hangar

equipment, stand, lifting mechanism

a specially equipped territory and a room for storing and conducting control tests of products after repairs

office space for accommodation of staff

cadastral number of immovable property (location)

information about the presence of fencing, insulation, distance from residential and industrial

facilities, in meters

4) measuring instruments corresponding to the operating conditions and the requirements of the legislation on ensuring the uniformity of measurements established for them:
information on the availability of measuring instruments

number and date of the certificate of verification of the measuring instrument

5) a log on accounting and storage of materials, semi-finished products (blanks), component

parts, products:

information on the availability of a log on accounting and storage of materials, semi-finished

products (blanks),

component parts, products

;

6) instructions approved by the head of the organization for the safe conduct of repair work:

information on the availability of instructions approved by the head of the organization for the

safe conduct of repair work

—
3. For the subtype of activities for the purchase and sale of ammunition, weapons and military

equipment, spare parts, components and devices for them, special materials, equipment for

their production, including assembling, commissioning, modernization, installation, use, storage, repair and maintenance, the following is needed:

1) the head or deputy head of a legal entity, including the head or deputy head of its branch, as well as an individual carrying out a licensed type of activity, has a higher technical education:

surname, first name, patronymic (if any)

position

—
number and date of the appointment order

major discipline

—
number and date of issue of the diploma of higher technical education

name of the higher educational institution that issued the diploma

2) qualified specialists with appropriate technical education, work experience of at least one

year in the specialty:

surname, first name, patronymic (if any)

position

—
number and date of signing of the appointment order

work experience in the specialty

major discipline

—;

number and date of issue of the diploma of higher technical education _____;

name of the higher educational institution that issued the diploma _____;

3) a specially equipped warehouse on the basis of the right of ownership, for the storage of
ammunition, weapons and military equipment,
spare parts, components and devices for them, special materials, equipment, fenced,
isolated, located at a safe distance from residential, public and industrial facilities
provided
for by current regulations,
meeting the requirements of regulatory legal acts in the field of sanitary and
epidemiological
welfare of the population, fire safety:
cadastral number of immovable property (location)
_____;

information about the presence of fencing, insulation, distance from residential and
industrial
facilities, in meters
_____;

—;

4) a log on accounting and storage of ammunition, weapons and military equipment, spare
parts, components and devices for them, as well as special materials and equipment for
their
production, including assembling, commissioning, modernization, installation, use,
storage,
repair and maintenance:
information on the availability of a log on accounting and storage of ammunition,
weapons
and military equipment, spare parts, components and devices for them, as well as special
materials and equipment for their production, including assembling, commissioning,
modernization, installation, use, storage, repair and maintenance
_____.
