**Rules for certification and issuance of a certificate to an organization
for maintenance and repair of state aviation equipment**

Chapter 1. General provisions

1. These Rules for certification and issuance of a certificate to an organization for maintenance and repair of state aviation equipment (hereinafter referred to as the Rules) are developed in accordance with subparagraph 11) of Article 6 of the Law of the Republic of Kazakhstan dated March 18, 2019 “On the defense industry and the state defense order” (hereinafter referred to as the Law) and determine the procedure for certification and issuance of a certificate to an organization for maintenance and repair of state aviation equipment (hereinafter - MR AE).

2. The following terms and definitions are used in these Rules:

1) aviation equipment (hereinafter - AE) - a complex of aviation technical equipment (aircraft, their on-board equipment and assemblies, engines, aircraft armament of a state aviation aircraft, aircraft rescue equipment, complex simulators (flight simulators), components, air traffic control equipment, landing navigation and communications, as well as ground support equipment of general and special application, designed to perform a flight, organize air traffic control and ground support of flights;

2) repair of aircraft equipment - a set of operations to restore the serviceability or operability of aviation equipment and restore the resources (service lives) of aviation equipment and its components;

3) maintenance of aircraft equipment - a set of measures to maintain and restore the technical readiness of aviation equipment during the overhaul period when it is used for its intended purpose, storage and transportation, the need for which is determined by its technical condition and documentation;

4) organization for maintenance and repair of aviation equipment (hereinafter referred to as the organization for maintenance and repair of aviation equipment, organization for MR AE) - a legal entity that provides maintenance and (or) repair of aviation equipment and has a valid certificate;

5) repair - a set of operations to restore serviceability or operability, eliminate the causes of failure and restore the expended resource of mechanisms, components or their components of weapons, military, automotive and special equipment, technical and special equipment;

6) an authorized body in the field of defense industry and state defense procurement (hereinafter referred to as the authorized body) - a state body that carries out management and inter-sectoral coordination in the field of defense industry;

7) an applicant - an organization for MR AE that has applied to the authorized body to obtain a Certificate of an organization for MR AE of state aviation;

8) non-compliance - full or partial non-compliance of the organization for maintenance and repair of AE with certification requirements;

9) certification commission - a commission created by the order of the authorized body, with the participation of officials of the authorized body and involved experts with relevant aviation education and at least one year of aircraft maintenance experience;

10) certification examination - an examination of the organization for MR AE, equipment, technological processes, documentation, organizational structure, competence of the applicant's personnel for compliance with certification requirements, carried out by the certification commission;

11) certification requirements - requirements for organizations for MR AE of state aviation, approved in accordance with subparagraph 12) of article 6 of the Law;

12) certificate holder - an organization for MR AE, which received a certificate of organization for MR AE of state aviation from the authorized body.

Footnote. Paragraph 2 as amended by order of the Minister of Industry and Construction of the Republic of Kazakhstan dated 05.09.2025 № 347 (shall be enforced sixty calendar days after the date of its first official publication).

3. The certificate of the organization for maintenance and repair of state aviation equipment in the form in accordance with Appendix 1 to these Rules (hereinafter - the certificate) is inalienable and is not transferred to another person.

4. The certificate is issued for one year, indicating the scope and validity. Upon expiration, the certificate is considered invalid; the certificate is valid throughout the territory of the Republic of Kazakhstan.

5. The authorized body keeps records of the issued certificates and certificate holders, information about which is posted on the website of the authorized body.

6. Certification of organizations for MR AE (hereinafter referred to as certification) and the issuance of a certificate are carried out by the authorized body.

Chapter 2. Procedure for certification of the organization for maintenance and repair of state aviation equipment

7. An organization for MR AE is subject to certification in the following cases:

1) during a planned certification (initial or after the expiration of the previously issued certificate);

2) when it is necessary to expand the scope of the organization;

3) after revocation (termination) of the previously issued certificate.

8. For certification, the applicant submits to the authorized body an application for obtaining a certificate by an organization for maintenance and repair of state aviation equipment in the form specified in Appendix 2 to these Rules (hereinafter - the application).

The application is attached with the documents for obtaining a certificate by an organization for maintenance and repair of state aviation equipment in accordance with Appendix 3 to these Rules (hereinafter - the list).

9. The total period of certification of an organization for maintenance and repair of state aviation is established taking into account the scope of forthcoming work, as well as the tasks set, and does not exceed one month.

10. The authorized body within two working days from the date of registration of the application checks the completeness and compliance of the submitted documents.

In the case of providing an incomplete package of documents, or providing documents that do not meet the established forms, the authorized body returns the submitted documents to the applicant indicating specific irregularities in the submitted documents.

In the absence of irregularities in the completeness of the package and the compliance of documents with the established forms, the authorized body sends the applicant a notification of certification in the form in accordance with Appendix 4 to these Rules.

11. The certification commission carries out a certification examination for compliance of the organization for maintenance and repair with certification requirements.

12. Depending on the number of non-compliances identified, as well as their degree of influence on ensuring the safety of working conditions, the protection of human life and health, the environment, flight safety and aviation security, the quality of contractual obligations under maintenance and repair of aviation equipment, the category of applicant's non-compliance with certification requirements is established:

1) category 1 - non-compliance with certification requirements, not hindering the implementation of activities and subject to elimination;

2) category 2 - non-compliance with certification requirements not hindering the implementation of activities provided that it is eliminated within the time agreed upon with the authorized body;

3) category 3 - non-compliance with certification requirements, hindering the implementation of activities.

13. Determination of the category of non-compliance of the applicant is carried out by the certification commission.

14. Based on the results of the certification examination, the certification commission draws up the act of certification examination (hereinafter - the act) in the form specified in Appendix 5 to these Rules.

The act indicates information on the actual state and security of the applicant's production infrastructure, the presence or absence of non-compliances with certification requirements and the established category of non-compliance of the applicant with certification requirements.

In case of non-compliance with the certification requirements of category 2, the authorized body establishes a period for elimination of identified non-compliances, not exceeding three months from the date of approval of the act of certification examination.

The applicant develops a corrective action plan in accordance with Appendix 6 to these Rules to eliminate the identified non-compliances.

If the applicant does not perform corrective actions within the time period established by the authorized body, the authorized body refuses to issue a certificate and (or) an annex to the certificate or withdraws a previously issued certificate and (or) an annex to the certificate.

In case of non-compliance with the certification requirements of category 1, a corrective action plan is not required.

At the end of the act, a conclusion is made about the possibility or impossibility of issuing a certificate and (or) annex to the certificate.

The act is drawn up in duplicate, signed by the members and the chairman of the certification commission. One copy of the act under signed receipt is handed over to the applicant.

Chapter 3. Procedure for issuance and refusal to issue, suspension, revocation, changes, additions, termination of a certificate and (or) annex to a certificate for maintenance and repair of AE

Paragraph 1. Issuance and refusal to issue a certificate and (or) annex to the certificate

15. On the basis of the act, the authorized body, within five working days after signing, makes a decision:

- 1) on the issuance of a certificate and (or) annex to the certificate;
- 2) on the possibility of issuing a certificate and (or) annex to the certificate after the applicant has eliminated the identified non-compliances;
- 3) on refusal to issue a certificate and (or) annex to the certificate. The authorized body notifies the applicant in writing of the decision.

16. The decision to issue a certificate and (or) annex to the certificate of the organization for maintenance and repair is taken in the absence of non-compliances with certification requirements or when establishing the non-compliance of category 1.

17. The decision on the possibility of issuing a certificate and (or) annex to the certificate after the applicant eliminates the identified non-compliances is taken when establishing the non-compliance of category 2.

18. The holder of the certificate, not later than two months before the expiration of the previously issued certificate, in the event that this type of activity continues, applies to the authorized body for certification and the issuance of a new certificate in accordance with paragraph 8 of these Rules.

19. The decision to refuse to issue a certificate and (or) annex to the certificate is made in the following cases:

- 1) identification of non-compliance with certification requirements or when establishing non-compliance of category 3;
- 2) establishing the fact of unreliability or forgery of documents submitted by the applicant to obtain a certificate and (or) annex to the certificate, and (or) data (information) contained in them;
- 3) non-compliance of the applicant and (or) submitted materials, objects, data and information necessary for issuing the certificate and (or) the annex to the certificate with the requirements established by these Rules;
- 4) with respect to the applicant there is a court decision (sentence) that has entered into legal force prohibiting the activities of this type or certain types of activities that require a certificate and (or) annex to the certificate;
- 5) the court on the basis of the recommendation of the bailiff temporarily prohibits the issuance of a certificate and (or) an annex to the certificate to the applicant.

Paragraph 2. Suspension and revocation of the certificate and (or) annex to the certificate

20. The authorized body suspends the validity of the certificate and (or) the annex to the certificate in the following cases:

- 1) non-compliance of the certificate holder with certification requirements;
- 2) the refusal of the certificate holder or his obstruction in ensuring the possibility of certification examination;
- 3) a written application by the certificate holder.

21. In case of suspension of the certificate and (or) the annex to the certificate, the authorized body notifies in writing of the decision made by the certificate holder within three working days indicating the reasons.

If the organization for maintenance and repair of AE does not eliminate the non-compliances and (or) irregularities resulting in the suspension of the certificate and / or the annex to the certificate within the time frame established by the corrective action plan, the authorized body withdraws the certificate and (or) the annex to the certificate. Upon revocation of the certificate and (or) annex to the certificate, the organization for maintenance and repair of AE returns, within three working days from the moment of receipt of the notification, the original certificate and (or) annex to the certificate to the authorized body.

22. The renewal of the certificate and (or) the annex to the certificate, in case of suspension, is carried out after the organization for maintenance and repair of AE implements the corrective action plan within the time period established by the plan, with the supporting documentation attached.

The organization's implementation of the corrective action plan is established by the authorized body through a certification examination.

23. The organization for maintenance and repair of AE is notified in writing by the authorized body of the decision to renew or refuse to renew the certificate and (or) the annex

to the certificate within three working days from the date of completion of the certification examination.

Section 3. Termination of the certificate and (or) annex to the certificate

24. The certificate and (or) the annex to the certificate expire in the following cases:

- 1) the expiration of the period for which they are issued;
- 2) certificate revocation;
- 3) termination of activity or liquidation of a legal entity;
- 4) the certificate holder's appeal to the authorized body on the termination of the certificate.

25. Upon termination of the certificate and (or) the annex to the certificate, the certificate holder returns the certificate and its annex to the authorized body within ten working days.

Paragraph 4. Change and addition to the certificate

26. Changes and additions are made to the current certificate and (or) annex to the certificate by the authorized body on the basis of an application from the certificate holder in the following cases:

- 1) changes in the data of the certificate holder (name, legal form, legal address);
- 2) reorganization of the certificate holder;
- 3) changes in the address of the location of the object without its physical movement.

27. In order to make changes and (or) additions to the current certificate and (or) annex to the certificate, the certificate holder, within one month from the date of the decision making on changes and additions, sends an application to the authorized body on making changes and (or) additions to the certificate of the organization for maintenance and repair of state aviation equipment in accordance with Appendix 7 to these Rules, as well as copies of documents containing information on the changes that served as the basis for re-issuance of the certificate and (or) annex to the certificate.

28. After receiving an application from the certificate holder, the authorized body makes changes to the current certificate and (or) the annex to the certificate after checking the submitted documents, no later than two working days.

29. In the case of providing an incomplete package of documents, or providing documents that do not meet the established forms, the authorized body returns to the applicant the submitted documents indicating specific irregularities in the submitted documents.

30. A previously issued certificate and (or) annex to the certificate shall be returned to the authorized body.

Section 5. Issuance of a certificate and (or) annex to the certificate in case of loss, theft, damage and issuance of a duplicate by the certificate holder

31. In case of loss, theft or damage to the issued certificate and (or) the annex to the certificate, the certificate holder submits an application to the authorized body for issuance of a duplicate.

32. A duplicate of the certificate and (or) annex to the certificate is issued by the authorized body within three working days from the date of registration of the applicant's appeal, where the mark "Duplicate" is made in the upper right corner.
