Rules for maintaining a register of potentially hazardous chemical, biological substances prohibited for use in the Republic of Kazakhstan

Chapter 1. General Provisions

1. These Rules for maintaining a register of potentially hazardous chemical and biological substances prohibited for use in the Republic of Kazakhstan (hereinafter - the Rules) have been developed in accordance with the Code of the Republic of Kazakhstan “On Public Health and the Healthcare System” and shall determine the procedure for maintaining a register of potentially hazardous chemical and biological substances prohibited for use in the Republic of Kazakhstan.

Footnote. Clause 1 is in the wording of the order of the Minister of Healthcare of the Republic of Kazakhstan dated 21.04.2025 № 39 (shall be enforced upon expiry of ten calendar days after the day of its first official publication).

2 In these Rules, the following basic concepts are used:

1) register of potentially hazardous chemical, biological substances prohibited for use in the Republic of Kazakhstan (hereinafter referred to as the register) – an electronic information resource of a state body in the field of sanitary and epidemiological welfare of the population, containing information about potentially hazardous chemical, biological substances prohibited for use in the Republic of Kazakhstan, production, use, import and export of which is not allowed;

2) subjects of scientific and (or) scientific and technical activities – individuals and legal entities that carry out scientific and (or) scientific and technical activities.

Chapter 2. The procedure for maintaining a register of potentially hazardous chemical, biological substances prohibited for use in the Republic of Kazakhstan

3. Maintaining the register shall be understood to mean:

1) entry of information submitted by subordinate organizations of the state body in the field of sanitary and epidemiological welfare of the population, subjects of scientific and (or) scientific and technical activities to the state body in the field of sanitary and epidemiological welfare of the population;

2) consideration of materials, decision-making by a state body in the field of sanitary and epidemiological welfare of the population, decisions on inclusion or refusal to be included in the register;

3) updating the register when changing information about potentially hazardous chemical, biological substances;

4) placement of the register on the Internet resource of the state body in the field of sanitary and epidemiological welfare of the population.

4. To ensure the maintenance of the register, subordinate organizations of the state body in the field of sanitary and epidemiological welfare of the population, subjects of scientific and (or) scientific and technical activities shall carry out the following work:

1) collection and analysis of information on potentially hazardous chemical, biological substances circulating in the territory of the Republic of Kazakhstan;

2) preparation of information and analytical materials on issues related to potentially hazardous chemical, biological substances, their toxicity and danger to human health and his environment;

3) analysis and identification of cause-effect relationships between the state of health and the human environment, the reasons and conditions for changing the sanitary and epidemiological welfare of the population based on the results of laboratory and instrumental studies of products and objects of sanitary and epidemiological control and supervision.

5. For the formation of the register, subordinate organizations of the state body in the field of sanitary and epidemiological welfare of the population, subjects of scientific and (or) scientific and technical activities shall submit the following materials in the state and (or) Russian languages:

1) information about the identified chemical and biological substances;

2) the results of the sanitary and epidemiological examination of chemical and biological substances, drawn up in accordance with the form of the order of the Minister of Healthcare of the Republic of Kazakhstan dated August 20, 2021 № ҚР ДСМ-84 "On approval of the forms for accounting and reporting documentation in the field of sanitary and epidemiological well-being of the population" (registered in the Register of state registration of regulatory legal acts under № 24082).

3) results of the scientific expert examination of chemical and biological substances, in the form according to Appendix 1 to these Rules.

Footnote. Clause 5 as amended by the order of the Minister of Healthcare of the Republic of Kazakhstan dated 21.04.2025 № 39 (shall be enforced upon expiry of ten calendar days after the day of its first official publication).

6. Based on the results of consideration of the submitted materials, the state body in the field of sanitary and epidemiological welfare of the population shall make a decision on the inclusion of potentially hazardous chemical, biological substances in the register or on refusal to be included in the register within ten working days.

7. The grounds for refusal to be included in the register are inaccuracy and (or) incompleteness of the specified information in the submitted materials.

8. The decision on the inclusion of potentially hazardous chemical, biological substances in the register shall be made in the form of an order of the head of the state body in the field of sanitary and epidemiological welfare of the population or a person replacing him.

9. In cases of disagreement with the decision of the state body in the field of sanitary and epidemiological well-being of the population, subjects of scientific and (or) scientific and technical activities may apply to a higher state body or to a court in accordance with the procedure prescribed by the legislation of the Republic of Kazakhstan.

10. The register is maintained by the state body in the field of sanitary and epidemiological well-being of the population in the form, according to Appendix 2 to these Rules.

11. The register is subject to publication on a quarterly basis on the Internet resource of the state body in the field of sanitary and epidemiological welfare of the population.
