

On Protection, Reproduction and Use of Animal World

Unofficial translation

The Law of the Republic of Kazakhstan dated 9 July, 2004 № 593.

Unofficial translation

Footnote. Throughout the text the words "on the water reservoirs (plots)", "of the water reservoirs (plots)", "the water reservoirs (plots)", "to the water reservoirs (plots)" are respectively substituted by the words "on the water reservoirs and (or) plots", "of the water reservoirs and (or) plots", "the water reservoirs and (or) plots", "to the water reservoirs and (or) plots" by the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); after the words "of the state control" and "the state control" are respectively supplemented by the words "and the supervision" and "and the supervision" by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication).

This Law regulates public relations in the field of protection, reproduction, and use of the animal world, as well as the preservation and reproduction of Kazakh breeds of dogs, and is directed at ensuring the conditions for preserving the animal world and its biological diversity, the sustainable use of the animal world objects in order to satisfy environmental, economic, aesthetic and other needs of a person, taking into account the interests of current and future generations.

Footnote. Preamble as amended by the Law of the Republic of Kazakhstan dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

Chapter 1. General provisions Article 1. Basic concepts used in this Law

The following basic concepts shall be used in this Law:

- 1) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication);
- 2) name plate a sign indicating the name and boundaries of hunting farms, reproduction plots and zones of peace, fisheries waters and (or) plots, as well as the terms and places, prohibited for hunting and fishing;
- 3) a hunter an individual, obtained the right to hunt in the manner established by the legislation of the Republic of Kazakhstan;
 - 3-1) hunting dogs Kazakh and other breeds of dogs used for hunting;
 - 4) hunter's certificate a standard document, certifying the right of individual to hunt;

- 5) reserve fund of hunting lands and fisheries waters and (or) plots hunting lands and fisheries waters and (or) plots, not vested to the users of animal world;
- 6) hunting minimum (hereinafter hunting minimum) special short course of training programs, considering the issues of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of animal world, safety regulations upon hunting, the awareness of which is compulsory condition for issuance of hunter's certificate;
- 7) Is excluded by the Law of the Republic of Kazakhstan dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023);
- 8) hunter's trophy animal (except for the fish resources and other water animals), its parts and derivatives taken out of the habitat in accordance with the legislation of the Republic of Kazakhstan;
- 9) hunting farm a type of economic activity on sustainable use of objects of animal world in the hunting lands, preservation of habitat of animal world, their protection and reproduction;
- 10) a category of hunting farm a unit of classification division of hunting farms on grounds of productivity of hunting lands, nature protection and reproduction measures, appropriated to the hunting farms on the basis of inter-farm hunting management;
- 11) the subject of hunting farm individual or legal entity, keeping the hunting farm on the fixed hunting lands in the manner established by the legislation of the Republic of Kazakhstan;
- 12) internal regulation of hunting farm a document, establishing procedure of hunting by individual in the territory of hunting farm, including the standards of production of animals, price list for services rendered;
- 13) hunting bird of prey eagle, falcon, hawk and other types of birds of prey, used in hunting;
 - 14) fishing catching of fish resources and other water animals;
- 15) fisherman individual, obtained the right to amateur (sports) fishing in the manner established by the legislation of the Republic of Kazakhstan;
- 16) fishing trophy the object of fish resources and other water animals, their parts and derivatives taken out of the habitat in the manner established by the legislation of the Republic of Kazakhstan;
- 16-1) fish reception zone a place specially equipped by a fisheries entity for the reception, weighing, recording, temporary storage and sale of fish resources and other aquatic animals caught in accordance with the procedure established by the legislation of the Republic of Kazakhstan;
- 16-2) fish stocking material young fish (larvae, fry and other age groups of fish) intended for stocking water bodies;
- 16-3) permit for the use of fish resources and other aquatic animals a document of the established form granting individuals and legal entities the right to use fish resources and

other aquatic animals, as well as to export and sell caught fish and other aquatic animals, their parts and derivatives, including fishing trophies;

- 17) breeding season of fishes period of time, during of which the spawning of one or another species of fishes is occurred;
- 18) certificate of origin of the catch a document established by the authorised body in the field of fisheries, confirming the origin of fish resources and other aquatic animals caught in fishery water bodies and (or) areas on the basis of a permit for the use of fish resources and other aquatic animals;
- 19) fish protection device a device to prevent the ingress of fish resources and other aquatic animals into water intake and waste disposal facilities;
- 20) fish-kill mass death of fish resources and other water animals, caused by violation of hydrochemical and other modes of the reservoir, and (or) plot;
- 21) fish-kill dangerous reservoir and (or) plot fishery water and (or) plot, subjected to periodic fish-kill;
 - 22) fish migration massive movement of fish from one inhabitation to another;
- 23) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication);
- 24) fishery resources and other aquatic animals total of all animals living in the aquatic environment, including aquatic biological resources, excluding plants;
- 25) the basin principle of state management of fish resources and other aquatic animals (hereinafter referred to as the basin principle) a unified system for managing fish resources and other aquatic animals in fishery waters and/or areas, taking into account the characteristics of reproduction and migration of fish resources and other aquatic animals, applied by the authorised body in the field of fisheries regardless of administrative-territorial division;
- 26) fisheries a type of economic activity related to the protection, reproduction, fishing, as well as processing and sale of fish resources and other aquatic animals;
- 26-1) authorised body in the field of fisheries a central executive body exercising leadership in the field of protection, reproduction and use of fish resources and other aquatic animals, as well as inter-sectoral coordination within the limits of its powers;
- 27) certification of fisheries waters and (or) plots a complex of measures on identification of the boundaries of fisheries waters and (or) plots, their area, state, species composition of fish resources and other water animals, made up ??To fixation the fisheries waters and (or) plots;
- 28) the subject of fish farm individual and legal entity, the basic direction of activity of which is the fish farm management;
- 28-1) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official

publication);

- 29) Is excluded by the Law of the Republic of Kazakhstan dated 15.06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication);
- 30) fisherman an employee of subject of fish farm, carrying out catching of fish resources and other water animals in the fixed fisheries waters and (or) plots by virtue of their employment duties;
- 31) certificate of fisherman a standard document, issued by the subject of fish farm, certifying the right of individual to carry out functions of fisherman;
- 32) biological substantiation scientifically based conclusion on the use of animal world, determination of allowable amount of seizure of objects of animal world, as well as on the activity, that may affect on the objects of animal world and their habitat;
- 32-1) shared aquatic biological resources aquatic biological resources that are jointly managed by the states on the shores of the Caspian Sea;
 - 33) derivative derivative animal and products, made from it and its derivative;
- 34) game breeding animals breeding, that are the object of hunting, the subjects of hunting farm;
- 35) animals wild animals (mammals, birds, reptiles, amphibians, fishes, shellfish, insects and other), being in a state of natural freedom on land, water, atmosphere and soil;
- 36) a part of animal (hereinafter part) a fragment of the animal's body, allowing him to identify its kind;
- 37) hybridization of animals crossing species of different species or breeds of animals in order to obtain species with the best economically useful signs or properties;
- 38) animal world a set of animals, permanently or temporarily inhabiting in the Republic of Kazakhstan, as well as related to the natural resources of the continental shelf and exclusive economic zone of the Republic of Kazakhstan;
- 38-1) wildlife monitoring is a system of observation, assessment and forecasting of the state and dynamics of wildlife for the purpose of state management in the field of protection, reproduction and use of wildlife and conservation of biodiversity;
- 39) removal of wildlife objects extraction (hunting, catching, shooting, gathering, slaughtering) from the habitat of animals living in a state of natural freedom, their parts and derivatives on the basis of a permit for the use of wildlife or a permit for the use of fish resources and other aquatic animals;
- 40) artificial breeding of wildlife objects keeping and breeding animal species in captivity and/or semi-captivity;
- 41) protection of animal world an activity, directed to preservation of animal world, its habitat and biological diversity, sustainable use and reproduction of objects of animal world, as well as complex of measures on prevention and struggle against infractions in the field of protection, reproduction and use of animal world;

- 42) state control in the field of protection, reproduction and use of the animal world activities of the authorised state body in the field of protection, reproduction and use of the animal world and the authorised body in the field of fisheries, their departments and their territorial subdivisions within their competence to check and monitor the entities being checked for compliance with the requirements established by the legislation of the Republic of Kazakhstan, in the course of which and based on the results of which measures of a restrictive nature may be applied without immediate response;
- 43) state supervision in the field of protection, reproduction and use of wildlife activities of the authorised state body in the field of protection, reproduction and use of wildlife and the authorised body in the field of fisheries, their departments and their territorial subdivisions within their competence to verify and monitor compliance by the entities being inspected with the requirements of the legislation of the Republic of Kazakhstan, in the course of which and based on the results of which measures of a restrictive nature may be applied, including operational response;
- 44) an authorized state body in the field of protection, reproduction, and use of the animal world (hereinafter- an authorized body) is a central executive body, carrying out management in the field of protection, reproduction, and use of the animal world, in the field of preservation and reproduction of Kazakh breeds of dogs, as well as intersectoral coordination within the limits of its powers;
- 45) sustainable use of animal world use of objects of animal world by methods, not leading to depletion of the species diversity of animal world and preserving its ability to reproduction and meeting the needs of current and future generations;
- 46) use of animal world use of objects of animal world, their parts, derivatives and useful properties with seizure or without seizure from habitat;
- 47) permit for the use of wildlife a document of the established form granting individuals and legal entities the right to use wildlife (with the exception of fish resources and other aquatic animals), as well as to export and sell harvested wildlife (with the exception of fish resources and other aquatic animals), their parts and derivatives, including hunting trophies;
- 48) users of the animal world individuals and legal entities, to whom the right to use of animal world is granted in accordance with this Law;
- 49) inevitable damage to the animal world a residual damage, not prevented by the precautionary measures, caused and (or) causing to the animal world or its habitat by the adverse effect of the factors resulting from natural climatic and human intervention;
- 50) biological diversity of animal world diversity of objects of animal world within one species, between species and diversity of ecological systems;
- 51) habitat of animal world natural habitat, in which the objects of animal world inhabit in a state of natural freedom;

- 52) habitat protection of animal world an activity directed at preservation of restoration of conditions of sustainable existence and reproduction of animal world in the state of natural freedom;
 - 53) an object of animal world species or animal population;
- 54) introduction of animals premeditated or accidental distribution of animal species outside the areas (areas of distribution) to the new place for them, where previously these types are not inhabited;
- 55) reintroduction of animals premeditated migration of animal species to the previous habitats;
- 56) reproduction of animal species natural reproduction of animal species in the natural condition and their artificial breeding;
- 57) Is excluded by the Law of the Republic of Kazakhstan dated 15.06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication);
- 58) a permit the document (one-time or seasonal), issued to the individual to visit the fixed hunting lands and (or) fisheries waters and (or) plots for the purpose of acquisition the objects of animal world;
- 58-1) Illegal, unreported and unregulated fishing illegal and/or unregulated activities of natural and legal persons to remove aquatic biological resources from their natural habitat;
- 59) zoological collection a collection of stuffed animals, eggs, cryopreserved germinal cells, products and parts of objects of animal world, objects of animal world, as well as wild animals of zoos, zoological gardens, circuses, zoological nurseries, aquariums, oceanarium, presenting scientific, cultural and educational, teaching educational and aesthetic value;
- 59-1) ichthyological observations collection and study of data on the status of the ichthyofauna of a fishery water body;
- 60) fish fauna a set of species of fish and cyclostomes of any of water reservoir or its part;
- 60-1) fishery is the activity of natural and legal persons whose purpose is to remove aquatic biological resources from their natural habitat;
- 60-2) fishing effort is the volume of production operations directly aimed at harvesting fish and other aquatic animals including, inter alia, the permitted number of fishing gear and equipment, floating craft, fishermen on the fishery bodies and/or areas assigned to the fishery;
- 61) commercial stock population or sustainable over time and spatially isolated part, having an independent commercial value;
- 62) accidental catch a part of catch consisting of fish species and other water animals, not specified in the permits and (or) fishes of below established commercial sizes;
- 62-1) cynological activity is an activity related to training, training to chase an animal of Kazakh breeds dogs and their other preparation for practical use, including in sports and

hunting, organizing and conducting zootechnical, sports and other mass events using dogs of Kazakh breeds, training of experts and training of specialists in working with Kazakh breeds of dogs.

Under the training, training to chase an animal of Kazakh breeds dogs and their other preparation for practical use, it is necessary to understand the upbringing and training of dogs of Kazakh breeds to work and (or) preparation for hunting, sports, and field trials;

- 62-2) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication);
- 63) cryopreserved germinal cells samples of germinal cells (gametes), the embryos and different animal tissues, being in a state of low temperature and other forms of conservancy, giving the opportunity to further use in order to obtain offspring, separation of genomes or other scientific researches;
- 63-1) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication);
- 63-2) the fishing zone of the Republic of Kazakhstan (hereinafter referred to as the fishing zone) is a maritime belt ten nautical miles wide, measured from the State Border (the outer limit of territorial waters) subject to the principles and norms of international law, within which the Republic of Kazakhstan has an exclusive right to fish for aquatic biological resources;
- 63-3) Kazakh breeds of dogs are ancient breeds Kazakh tazy and Kazakh tobet, corresponding to the approved standard of Kazakh breeds of dogs;
- 63-4) the standard of Kazakh breeds of dogs is a description of dogs of Kazakh breeds according to exterior-constitutional characteristics and using qualities;
- 63-5) Unified pedigree book of dogs of Kazakh breeds (hereinafter- the Unified pedigree book) is a set of data on the dogs of Kazakh breeds indicating the information about the origin , pedigrees, exterior-constitutional characteristics and other qualities;
- 63-6) a certificate of origin of a Kazakh breed dog (hereinafter-the certificate of origin) is a document containing information about its pedigree;
- 64) huntsman specifically authorized person of hunting service, ensuring protection of animal world in the fixed hunting lands and fisheries waters and (or) plots;
 - 65) certificate of huntsman a standard document, certifying the right of huntsman;
- 66) hunting service a structural subdivision of subjects of hunting and fish farm, carrying out functions of protection of animal world on the fixed hunting lands and fisheries waters and (or) plots;
- 67) wintering pit a place of mass fish concentration in the winter period in the dredging of the reservoir;

- 67-1) common water area the part of the Caspian Sea water area located outside the outer limits of the fisheries zones and used by the states located on the shores of the Caspian Sea;
- 68) river basin (sea, lakes) a part of the earth surface and the thickness of soil, limited by watershed from which the water flows into the river (sea, lake);
- 69) zone of recreational fishing a plot of fisheries waters and (or) the plot and adjacent seashore, defined by the local executive body according to the established procedure for carrying out of amateur (sports) fishing;
- 70) servitude the right of limited designated use of someone else's land and water body, including a fixed fishery reservoir and (or) a site for the needs of hunting and fish farms;
- 71) stocking of reservoirs release of fish-planting material and fish into water bodies and (or) areas with the purpose of creating self-reproducing populations, preserving valuable, rare and endangered fish species and (or) obtaining marketable products;
- 71-1) aquatic biological resources fish, molluscs, crustaceans, mammals and other aquatic animal and plant species living in the territorial waters, fishing zone and common water area;
- 71-2) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication);
- 72) fish amelioration of water bodies a complex of measures directed at preservation and increasing of fish capacity of reservoirs, improvement of living conditions and reproduction of fish resources and other water animals;
- 73) draught a complex process carried out by surrounding of a certain part of water area of reservoirs by filtering-type fishing weapons (nets) for the purpose of fishing in the shore land, as well as in the open water mass;
- 73-1) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication);
- 73-2) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication);
- 73-3) a purebred dog of the Kazakh breed is a dog of the Kazakh tazy or Kazakh tobet breed that meets the approved standard of Kazakh dog breeds and has a certificate of origin containing information about at least three continuous generations of ancestors belonging to the same breed;
- 74) a rest zone the territory of particular importance for the conservation or restoration of wildlife, determined by a hunting entity, within which (permanently or temporarily) certain types and forms of economic activity are prohibited or regulated;

- 75) specialised organisations state institutions for the protection, reproduction and sustainable use of wildlife and republican state enterprises for the protection, reproduction and sustainable use of wildlife, as well as the preservation and reproduction of Kazakh dog breeds;
 - 76) spawn a process of spawning of full caviar by fishes and its subsequent fertilization;
 - 77) spawning fish spawning ground;
- 78) fishery (fishery plot) part of the river or other flowing water reservoir with limited water area of the reservoir and the adjacent seashore, intended and adapted for the needs of commercial fishing;
- 78-1) farm hunting a hunting farm, specializing in the artificial breeding of animals that are privately owned, for hunting purposes;
- 79) interfarm hunting management delimitation of the boundaries and categories of hunting farm, calculation of its area, determination of the state of animal world and its habitat, methods for recording animals, control routes and animal registration areas for the projected hunting farms;
- 80) Is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).

Footnote. Article 1 is in the wording of the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); as amended by the Laws of the Republic of Kazakhstan dated 13.06.2013 № 102-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); № 156-VI as of 24.05.2018 (shall be enforced ten calendar days after its first official publication); dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); № 399-VI of 02.01.2021 (shall be enacted upon expiration of ten calendar days after its first official publication); № 11-VII of 23.02.2021 (see Art. 2 for the enactment procedure); № 26-VII of 01.04.2021 (shall come into force upon expiration of ten calendar days after its first official publication); № 34-VII of 30.04.2021(shall take effect upon expiration of ten calendar days after its first official publication); № 401-VI of 02.01.2021 (shall be enacted on 01.07.2021); dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (for the procedure for entry into force, see Article 2).

Article 2. The legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of animal world

- 1. The legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of animal world shall be based on the Constitution of the Republic of Kazakhstan and shall consist of this Law and other regulatory legal acts of the Republic of Kazakhstan.
- 2. If by the international treaty, ratified by the Republic of Kazakhstan, made other rules than those that contained in this Law, the rules of the international treaty shall be applied.

Article 3. The categories of animal world

- 1. Animal world on its purposive appointment shall be subdivided into the following categories:
 - 1) rare and endangered animal species;
 - 2) animal species, being the object of hunting;
 - 3) animal species, being the object of fishing;
 - 4) animal species, used in other economic purposes (except for the hunting and fishing);
- 5) animal species, not used in the economic purposes, but having ecological, cultural and other value;
- 6) animal species, the number of which subjects to regulation for the purposes of health protection of population, protection from diseases of farm and other domestic animals, prevention of damage to the environment, prevention of the danger of causing significant damage to agricultural activity.
- 2. Classification of animals species into categories and their transfer from one category to another shall be carried out on the basis of a biological justification for conservation of species diversity in the animal world, their protection, reproduction and sustainable use, on the recommendation of the inter-agency zoological commission.

Footnote. Article 3 as amended by the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement sees Article 2); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 4. Ownership of animal world and objects of animal world

- 1. The animal world belongs to the people of Kazakhstan. The State exercises the right of ownership on behalf of the people of Kazakhstan. At the same time, the exercise of the right of ownership by the state shall be implemented through the regime of state ownership in the interests of the people of Kazakhstan.
- 2. The objects of animal world, seized from habitat in the manner established by this Law, as well as bred and managed in captivity and (or) semi-free conditions shall be the property of individuals and legal entities, that are procured, bred and manage them.

Footnote. Article 4 as amended by the Law of the Republic of Kazakhstan dated 05.11.2022 № 157-VII (shall be enforced upon expiry of ten calendar days after the day of its first official publication).

Article 5. Subjects of relations in the field of protection, reproduction, and use of the animal world, as well as in the field of preservation and reproduction of Kazakh breeds of dogs

Footnote. A heading as amended by the Law of the Republic of Kazakhstan dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

The subjects of relations in the field of protection, reproduction, and use of the animal world, as well as in the field of preservation and reproduction of Kazakh breeds of dogs shall be individuals and legal entities, as well as the state bodies.

Footnote. Article 5 as amended by the laws of the Republic of Kazakhstan dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

Article 6. The basic principles of the state management in the field of protection, reproduction , and use of the animal world, as well as in the field of preservation and reproduction of Kazakh breeds of dogs

Footnote. A heading as amended by the Law of the Republic of Kazakhstan dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

- 1. The basic principles of state management in the field of protection, reproduction, and use of the animal world shall be:
 - 1) ensuring protection, reproduction and sustainable use of animal world;
- 2) use of animal world by methods, not permitting abusive handling of the animals in accordance with principles of humanity;
- 3) inadmissibility of combining activities for implementation of state control and supervision over the use and protection of animal world with the activity on using of animal world objects, except for the activity on removal of sturgeon species from natural habitat, their purchase, processing and sale of their eggs and other product, referred to the state monopoly;
- 4) separation of the right to use of animal world from the right to use of land, water, flora and other natural resources;
 - 5) payment for the special use of animal world;
- 6) the inevitability of responsibility for violation of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of animal world;
- 7) participation of citizens and public associations in the tasks solution in the field of protection, reproduction and sustainable use of objects of animal world.
- 2. The basic principles of state management in the field of preservation and reproduction of Kazakh breeds of dogs shall be:
 - 1) ensuring the preservation and reproduction of Kazakh breeds of dogs;
 - 2) protection of the purebredness of the Kazakh breeds of dogs.

Footnote. Article 6 as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten

calendar days after its first official publication); dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

Article 6-1. A system for ensuring protection, reproduction, and sustainable use of the animal world, as well as in the field of preservation and reproduction of Kazakh breeds of dogs

Footnote. A heading as amended by the Law of the Republic of Kazakhstan dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

- 1. A system for ensuring protection, reproduction, and sustainable use of the animal world shall include:
 - 1) The Government of the Republic of Kazakhstan;
 - 2) the authorized body, including its department with territorial subdivisions;
- 2-1) the authorized body in the field of fisheries, including its department with territorial divisions;
- 3) other state bodies, carrying out activity in the field of protection, reproduction and sustainable use of animal world;
 - 4) bodies of local state management;
 - 5) specialized organizations;
- 6) Is excluded by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication);
 - 7) scientific organizations in the field of protection, reproduction and use of animal world;
- 8) subjects of hunting and fishing farms; 9) republican associations of public associations of hunters and subjects of hunting farm, as well as public associations of fishermen and subjects of fish farm.
- 2. A system for ensuring the preservation and reproduction of Kazakh breeds of dogs shall include:
- 1) the authorized body, the department of the authorized body, and its territorial subdivisions;
- 2) other state bodies carrying out activity in the field of preservation and reproduction of Kazakh breeds of dogs;
 - 3) the National Center for Kazakh breeds of dogs;
 - 4) individuals and legal entities engaged in cynological activities.

Footnote. The Law is supplemented by Article 6-1 in accordance with the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (the order of enforcement see Article 2); date 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after its first official publication).

Article 6-2. The bodies and civil servants of the state management in the field of protection, reproduction and use of animal world

Bodies and officials of state administration in the field of protection, reproduction and use of wildlife shall include the President of the Republic of Kazakhstan, the Government of the Republic of Kazakhstan, the authorized body and the authorized body in the field of fisheries, including their departments with territorial subdivisions.

Footnote. The Law is supplemented by Article 6-2 in accordance with the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); as amended by the Law of the Republic of Kazakhstan dated 05.07.2011 № 452-IV (shall be enforced from 13.10.2011); dated 15.06.2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 7. Features of the state management in the field of protection, reproduction and use of fish resources and other water animals

State accounting, cadastre, monitoring and control over the use of fish resources and other aquatic animals, as well as their study, protection and reproduction constitute a unified system of state administration and are carried out in fishery reservoirs and (or) areas according to the basin principle, as well as in fish farms.

State monitoring of fish and other aquatic animals is an integral part of the state administration system in the field of protection, reproduction and use of the animal world.

State monitoring of fish and other aquatic animals is a system capable of ensuring the collection and timely processing of information on caught, purchased, farmed fish or other aquatic animals, wholesale and retail sales of fish and other aquatic animals, export and import in order to timely detect and prevent sale of fish and other aquatic animals of illegal origin.

Fishery subjects shall be registered in the information system for monitoring fish and other aquatic animals and enter data and information into it in the manner determined by the authorized body in the field of fisheries.

State monitoring of fish and other aquatic animals shall be carried out by the authorized body in the field of fisheries together with local executive bodies in accordance with the rules for monitoring fish and other aquatic animals.

Footnote. Article 7 as amended by the Law of the Republic of Kazakhstan dated $28.10.2019 \, \text{N}_{\text{\tiny 2}} \, 268\text{-VI}$ (shall be enforced upon expiry of ten calendar days after the day of its first official publication); dated $12.06.2025 \, \text{N}_{\text{\tiny 2}} \, 194\text{-VIII}$ (for the procedure for entry into force , see Article 2).

Article 8. The competence of the Government of the Republic of Kazakhstan in the field of protection, reproduction, and use of the animal world, as well as in the field of preservation and reproduction of Kazakh breeds of dogs

Footnote. A heading as amended by the Law of the Republic of Kazakhstan dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

The Government of the Republic of Kazakhstan shall:

- 1) develop the basic directions and ensure the implementation of state policy in the field of protection, reproduction, and use of the animal world, as well as in the field of preservation and reproduction of Kazakh breeds of dogs;
 - 2) exercise the right of possession, use and disposition of the animal world;
- 3) excluded by the Law of the Republic of Kazakhstan dated 19.04.2023 № 223-VII (shall be enforced ten calendar days after the date of its first official publication).
- 4) excluded by the Law of the Republic of Kazakhstan dated 19.04.2023 № 223-VII (shall be enforced ten calendar days after the date of its first official publication).
- 5) excluded by the Law of the Republic of Kazakhstan dated 19.04.2023 № 223-VII (shall be enforced ten calendar days after the date of its first official publication).
- 6) shall take a decision to export individuals of sturgeon species caught from the natural habitat and their fertilized caviar out of the Republic of Kazakhstan in a living form;
- 7) adopt decision on seizure of rare and endangered species of animals, their part or derivatives;
- 8) approve the list of rare and endangered species of animals and transfer them in other category;
- 9) shall introduce restrictions on international trade in rare and endangered species of animals, their parts and derivatives, bred in captivity and (or) semi-free conditions;
- 10) carry out international cooperation in the field of protection, reproduction and use of animal world;
- 11) approve the ruled of application of special means and service weapon by the state inspectors on protection of animal world and inspectors of specialized organizations on protection of animal world, as well as application of service weapon by the huntsmen;
- 12) excluded by the Law of the Republic of Kazakhstan dated 19.04.2023 № 223-VII (shall be enforced ten calendar days after the date of its first official publication).

Footnote. Article 8 is in the wording of the Law of the Republic of Kazakhstan dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); as amended by the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023); dated 19.04.2023 № 223-VII (shall be enforced ten calendar days after the date of its first official publication).

Article 9. The competence of the authorized body, its department with territorial subdivisions, and other state bodies of the Republic of Kazakhstan, carrying out activities in the field of protection, reproduction, and use of the animal world

Footnote. Title of Article 9 is in wording of the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); as amended by the Law of the Republic of Kazakhstan dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

- 1. The authorized body shall:
- 1) form and implement the state policy and carry out cross-sectoral coordination in protection, reproduction and use of wildlife;
- 2) carry out coordination and methodological management of local executive bodies in the field of protection, reproduction and use of animal world;
- 3) develop and approve the regulatory legal acts in the field of protection, reproduction, and use of the animal world, as well as in the field of preservation and reproduction of Kazakh breeds of dogs;
- 3-1) monitor the registration of dogs of Kazakh breeds conducted in accordance with the Law of the Republic of Kazakhstan "On responsible treatment of animals";
 - 3-2) approve the standards of Kazakh breeds of dogs;
- 4) develop and approve the forms of the acts of the state inspector on protection of animal world, procedure of their preparation and issuance;
- 5) develop and approve norms and standards in the field of protection, reproduction and use of animal world;
- 5-1) determines the list of requirements, the violation of which shall entail the application of rapid response measures, and also determines a specific type of rapid response measure in relation to specific violations of the requirements, indicating the period of validity of this measure (if necessary).

The list of requirements, the violation of which entails the application of rapid response measures, includes requirements that are the subject of state control in accordance with Article 143 of the Entrepreneurial Code of the Republic of Kazakhstan;

- 6) develop and approve samples of uniforms with signs of distinction (without epaulettes), the order of wearing and the norms of providing it to officials of the department of the authorized body and its territorial units exercising state control and supervision in the field of protection, reproduction and use of animal world, as well as workers of State institutions and organizations that directly protect animal world;
- 7) develop and approve methods for determining rates of payments for the use of wildlife and the amount of compensation for damage caused by violation of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife;

- 8) develop and approve the form and procedure for issuing hunter and gamekeeper certificates;
- 9) issues a conclusion (an authorization document) for the export of wild live animals from the customs territory of the Eurasian Economic Union, including rare and endangered ones;
- 10) issue permits for the import of animal species into the territory of the Republic of Kazakhstan, export and (or) re-export from the territory of the Republic of Kazakhstan, falling under the Convention on International Trade of the endangered species of wild fauna and flora;
- 11) develop and approve procedure of preparation of biological substantiation for the use of animal world;
 - 12) develop and approve standard forms of contracts for hunting;
- 13) develop and approve a standard form of a plan for the development of hunting entities
- 14) develop and approve the standard form of a permit, as well as procedure of its issuance;
- 15) determine the lists of species of animals, referred to the categories, provided by subparagraphs 4), 5) and 6) of paragraph 1 of Article 3 of this Law and transfer them from one category to another, except for assignment to the category of rare and endangered;
- 16) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 17) organize and (or) ensure the conduct of scientific research and design and survey work in the field of protection, reproduction and use of animal world on the territory of two or more regions;
 - 18) develop and approve the lists of wetlands of international and republican significance;
 - 19) organize maintaining of the state accounting, cadaster and monitoring of animal world
- 20) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 20-1) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 21) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 22) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official

publication);

- 23) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 24) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 25) verify activity of users of animal world for the purposes of determination of observance of requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of animal world;
- 26) carry out production in the cases of administrative infractions within the competence, established by the Laws of the Republic of Kazakhstan;
- 26-1) prepare and file a claim in court on the issues of protection, reproduction and use of wildlife;
- 27) carry out the state control and supervision in the field of protection, reproduction and use of animal world;
- 28) maintain, place and quarterly updates the register of zoological collections on the web-sites;
- 29) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 30) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 30-1) is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).
- 31) carry out international cooperation in the field of protection, reproduction and use of animal world;
- 32) Is excluded by the Law of the Republic of Kazakhstan dated 29.12.2014 № 269-V (shall be enforced from 01.01.2015);
- 33) develop and approve the rules of awarding of honorary ranks, badges and certificates of honour in the field of protection, reproduction and use of animal world;
- 34) develop and approve the form of badge of huntsman and special clothes with the signs of differences;
- 35) develop and approve the rules on interfarm hunting management in the territory of the Republic of Kazakhstan;

- 36) Is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).
- 37) develop and approve instruction on maintaining of accounting of species of animals in the territory of the Republic of Kazakhstan;
 - 38) develop and approve the hunting minimum;
- 39) develop and approve the rules for holding the hunting minimum examination by the Republican Association of Public Associations of Hunters and Hunting Entities;
- 40) develop and approve the rules for accreditation of republican associations of public associations of hunters and hunting entities, conducts their accreditation;
 - 41) develop and approve the reporting form on issuance of certificates of hunter;
- 42) carry out reception of notifications on the commencement or termination of an activity for artificial breeding of animals, the species of which are included in Annexes I and II of the Convention on International Trade in Endangered Species of Wild Fauna and Flora;
- 43) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 44) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 45) develop and approve the rules of assignment of reservoirs to the wetlands of international and republican significance;
- 46) develop and approve the amount so compensation of damage, caused by the violation of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of animal world;
- 47) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 47-1) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 47-2) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 47-3) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
 - 47-4) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-

VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);

- 48) develop and approve provision on the state protection of animal world;
- 49) develop and approve the rules of establishment of restrictions and prohibitions for the use of objects of animal world, their parts and derivatives;
- 50) develop and approve the list of officials of the department of the authorized body and its territorial subdivisions exercising state control and supervision in the field of protection, reproduction and use of animal world, as well as employees of state institutions and organizations that directly protect the fauna and having the right to wear uniform with signs of distinction (without shoulder straps);
- 51) develop the rules of use of special means and service weapons by the state inspectors on protection of animal world and inspectors of specialized organizations on protection of animal world, as well as use of service weapons by huntsmen;
- 52) develops and approves the rules for issuing permits by the administrative body for import of animal species into the territory of the Republic of Kazakhstan, export and (or) re-export from the territory of the Republic of Kazakhstan, falling under the Convention on International Trade of the endangered species of wild fauna and flora;
- 53) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 54) is excluded by the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication);
- 55) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 56) develop and approve the rules of allocation of quotas of seizure of objects of animal world;
 - 57) develop and approve hunting rules;
 - 58) develop and approve rules for hunting;
 - 59) develop and approve the rules of issuance of permissions for the use of animal world;
- 60) develop and approve the rules of issuance of permissions for production of introduction, reintroduction and hybridization of animals;
 - 61) develop and approve the rules of regulation of animal numbers;
- 62) make a decision on the introduction of restrictions and prohibitions on the use of wildlife, their parts and derivatives, establish the places and periods of their use on the basis of a biological justification issued by the relevant scientific organizations, subject to state environmental expertise, subject to state environmental expertise;
- 63) develop and approve the rules of maintaining of the state accounting, cadaster and monitoring of animal world;

- 64) develop and approve the rules of creation and the state accounting of zoological collections;
- 65) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 65-1) is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).
- 65-2) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 66) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 67) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
 - 68) develop and approve the list of derivatives;
- 69) develop and approve the rules for the keeping, breeding in captivity and semi-freezing of rare and endangered animal species and species subject to the Convention on International Trade in Endangered Species of Wild Fauna and Flora;
- 70) develop and approve the rules of maintaining of accounting and registration of hunting birds of prey used for hunting;
- 71) develop and approve the rules for the introduction, reintroduction and hybridization of animals;
- 72) is excluded by the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication);
- 73) is excluded by the Law of the Republic of Kazakhstan dated 15.06.2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication);
- 74) organize and ensure reproduction and state registration of wildlife in the reserve fund of hunting grounds;
- 75) issue permissions for production of introduction, reintroduction and hybridization of animals;
- 76) carry out the state control and supervision of local executive bodies in the field of protection, reproduction and use of animal world;
- 76-1) decide to postpone the prohibition on taking wildlife species by fifteen calendar days to one side or the other, depending on natural and climatic conditions, without changing the total duration of the prohibition on the recommendation of accredited scientific organisations in the field of wildlife protection, reproduction and use;

- 77) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 77-1) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 77-2) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 77-3) develop and approve norms for equipping material and technical facilities of territorial subdivisions of the department of the authorized body, local executive bodies engaged in the protection, reproduction and use of animal world, and specialized organizations in coordination with the central authorized body for budget planning;
- 77-4) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 77-5) is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).
- 77-6) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 77-7) is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).
- 77-8) develop and approve rules for the use of animals, except for rare and endangered, in order to prevent epizootics;
- 77-9) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 77-10) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 77-11) issues a license for the export of wild live animals from the customs territory of the Eurasian Economic Union, including rare and endangered ones;
- 77-12) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
 - 77-13) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-

VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);

77-14) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);

77-16) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);

77-17) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);

77-18) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);

78) exercise other powers, provided by this Law, other Laws, the acts of the President of the Republic of Kazakhstan and the Government of the Republic of Kazakhstan.

The Office with territorial units shall carry out its activities within the competence established by the authorized body.

2. The competence of other state bodies of the Republic of Kazakhstan, carrying out activity in the field of protection, reproduction, and use of the animal world, as well as in the field of preservation and reproduction of Kazakh breeds of dogs shall be established by the legislation of the Republic of Kazakhstan.

Footnote. Article 9 is in the wording of the Law of the Republic of Kazakhstan dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); as amended by the Law of the Republic of Kazakhstan dated 29.12.2014 № 269-V (shall be enforced from 01.01.2015); of March 29, 2016 № 479-V (shall be enforced upon expiry of ten calendar days after its first official publication); of June 15, 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); № 156-VI as of 24.05.2018 (shall be enforced ten calendar days after its first official publication); dated 28.10.2019 № 268-VI (the order of enforcement see Art. 2); № 399-VI of 02.01.2021 (shall be enacted ten calendar days after the date of its first official publication); № 11-VII of 23.02.2021 (see Art. 2 for the enactment procedure); № 34-VII of 30.04.2021 (shall be entered into force ten calendar days after its first official publication); № 401-VI of 02.01.2021 (shall take force on 01.07.2021); № 75-VII of 24.11.2021 (shall enter into force ten calendar days after the date of its first official publication); dated 03.01.2023 № 185-VII (see Article 2 for the procedure of entry into force); dated 19.04.2023 № 223-VII (shall be enforced ten calendar days after the date of its first official publication); dated 06.04.2024 № 71-VIII (for enforcement procedure, see Art. 2); dated 12.06.2025 № 194-VIII shall enter into force upon expiry of ten calendar days after its first official publication).

Article 9-1. Competence of the authorized body in the field of fisheries, its departments with territorial subdivisions

Authorized body in fisheries areas shall:

- 1) perform strategic, regulatory, implementation and control and supervisory functions within its competence;
- 2) based on and in pursuance of the main directions of the domestic and foreign policy of the state, determined by the President of the Republic of Kazakhstan, and the main directions of the socio-economic policy of the state, its defense capability, security, ensuring public order, developed by the Government of the Republic of Kazakhstan, forms the state policy in the field of protection, reproduction and use of fish resources and other aquatic animals in accordance with the current legislation of the Republic of Kazakhstan;
- 3) carry out coordination and methodological guidance of local executive bodies in the field of protection, reproduction and use of fish resources and other aquatic animals;
- 4) develop and approve regulatory legal acts in the field of protection, reproduction and use of fish resources and other aquatic animals in accordance with the legislation of the Republic of Kazakhstan;
- 5) develop and approve norms and standards in the field of protection, reproduction and use of fish resources and other aquatic animals;
- 6) determine the list of requirements, violation of which entails the use of prompt response measures, and also determine in relation to specific violations of requirements a specific type of prompt response measure with an indication of the duration of this measure (if necessary).

The list of requirements, violation of which shall entail the application of prompt response measures, include requirements that shall be the subject of state control in accordance with Article 143 of the Entrepreneurial Code of the Republic of Kazakhstan;

- 7) develop and approve a methodology for determining the rates of payments for the use of fish resources and other aquatic animals and the amount of compensation for damage caused by violation of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife, as well as calculating the amount of compensation for damage caused to fish resources and other aquatic animals, including inevitable, as a result of economic activities;
- 8) issues an opinion (permit) on the export from the customs territory of the Eurasian Economic Union of wild live animals (fish and other aquatic animals), including rare and endangered animals, included in the Unified list of goods to which bans or restrictions on the import or export of member states of the Eurasian Economic Union apply in trade with third countries;
- 9) issue permit for the import into the territory of the Republic of Kazakhstan, export and (or) re-export from the territory of the Republic of Kazakhstan of fish species and other

aquatic animals subject to the Convention on International Trade in Endangered species of Wild fauna and flora;

- 10) develop and approve the procedure for preparing a biological justification for the use of fish resources and other aquatic animals;
- 11) develop and approve a list of approved for use commercial and non-commercial types of fishing tools and methods;
- 12) organize and (or) ensure the conduct of scientific research and design and survey work in the field of protection, reproduction and use of fish resources and other aquatic animals in fishery reservoirs located in two or more areas;
- 13) develop and approve the procedure for the movement of water transport during the spawning period prohibited for fishing, as well as in water bodies and (or) areas prohibited for fishing;
- 14) develop and approve the procedure for marking sturgeon caviar for trade in the domestic and foreign markets and the form of the brand for trade in sturgeon caviar on the foreign market, and issue the brand for trade in the domestic market;
- 15) carry out and/or organize fishing for the purpose of introduction, reintroduction and hybridization, fishing for reproductive purposes, fishing in frozen water bodies and/or areas, and also carry out control fishing;
- 16) issue permits for the use of fish resources and other aquatic animals for research fishing in fishery reservoirs located in two or more areas, as well as for rare and endangered species of animals;
- 17) verify the activities of users of the animal world (in terms of fish resources and other aquatic animals) in order to determine compliance with the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of the animal world;
- 18) carry out state control and supervision in the field of protection, reproduction and use of wildlife in terms of fish resources and other aquatic animals;
- 19) on the basis of scientific recommendations, make a decision on reclamation fishing in cases of the threat of overfishing, which will inevitably lead to the death of fish, and the impossibility of eliminating such a threat by conducting ongoing fishery reclamation of water bodies or parts to the Rules;
- 20) receive notifications of the beginning or termination of activities for the artificial breeding of animals (fish and other aquatic animals), the species of which shall be included in Annexes I and II of the Convention on international trade in endangered species of wild fauna and flora;
- 21) develop and approve rules for work on stocking water bodies, fisheries reclamation of water bodies;
- 22) develop and approve rules for establishing restrictions and bans on the use of fish resources and other aquatic animals, their parts and derivatives;

- 23) develop and approve the rules for issuing permits by the administrative body for the import into the territory of the Republic of Kazakhstan, export and (or) re-export from the territory of the Republic of Kazakhstan of fish species and other aquatic animals subject to the Convention on international trade in endangered species of wild fauna and flora;
- 24) develop and approve rules for the distribution of quotas for the withdrawal of fishing facilities;
 - 25) develop and approve fishing rules;
 - 26) develop and approve rules for fisheries management;
- 27) develop and approve rules for issuing permits for the use of fish resources and other aquatic animals;
- 28) decide on the introduction of restrictions and prohibitions on the use of fish resources and other aquatic animals, their parts and derivatives, establish the places and terms of their use on the basis of biological justification issued by the relevant scientific organizations;
- 29) develop and approve the rules for holding a competition for fixing fishery reservoirs and (or) plots and qualification requirements for tender participants;
- 30. develop and approve rules for the management, captivity and semi-captive management of rare and endangered species of fish and other aquatic animals, including endangered species under the Convention on international trade in endangered species of wild fauna and flora;
- 31) organize and ensure reproduction and state registration of fish resources and other aquatic animals in the reserve fund of fishery reservoirs and (or) plots;
- 32) carry out state control and supervision of local executive bodies in the field of protection, reproduction and use of wildlife in terms of fish resources and other aquatic animals;
- 33) make a decision to postpone the ban on the seizure of fish resources and other aquatic animals by fifteen calendar days in one direction or another, depending on natural and climatic conditions, without changing the total duration of the ban on the recommendation of accredited scientific organizations in the field of protection, reproduction and use of fish resources and other aquatic animals;
- 34) hold a competition for securing fishery reservoirs and (or) areas of international, republican and local importance;
- 35) develop and approve rules for the use of fish and other aquatic animals, except rare and endangered, in order to prevent epizootics;
 - 36) develop and approve rules for monitoring fish and other aquatic animals;
- 37) develop and approve rules for the transfer of fishery reservoirs and (or) areas assigned for fishing to fishery reservoirs and (or) areas for fish farming;
- 38) issues a license for export from the customs territory of the Eurasian Economic Union of wild live animals (fish and other aquatic animals), including rare and endangered, included

in the Unified list of goods to which prohibitions or restrictions on import or export by member states of the Eurasian Economic Union in trade with third countries apply;

- 39) conclude contracts for fisheries management;
- 40) issue a permit for the use of fish resources and other aquatic animals for the purpose of fishing aquatic biological resources in the fishing zone and common water space;
- 41) makes decisions on fixing and (or) extending the terms of fixing fishery reservoirs and (or) areas of international, republican and local significance;
- 42) make decisions on the transfer of fishery reservoirs and (or) areas assigned for fishing to fishery reservoirs and (or) areas for fish farming;
- 43) develop and approve requirements for fish protection devices of water intake and discharge facilities and approve their installation;
- 44) exercise other powers provided for by this Law, other Laws of the Republic of Kazakhstan, acts of the President of the Republic of Kazakhstan and the Government of the Republic of Kazakhstan.

The agency and its territorial subdivisions shall carry out their activities within the competence established by the authorized body in the field of fisheries.

Footnote. Chapter 2 as added by Article 9-1 in accordance with the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 10. The competence of bodies of local state management in the field of protection, reproduction and use of animal world

- 1. Local executive bodies of the Republic of Kazakhstan shall:
- 1) Is excluded by the Law of the Republic of Kazakhstan dated 03.07.2013 № 124-V (shall be enforced upon expiry of ten calendar days after its first official publication);
 - 1-2) carry out and (or) organise fishing in flood-prone reservoirs and (or) sites;
- 2) consider the reports of the heads of local executive bodies on issues of protection, reproduction and use of animal world;
- 2-1) organise and ensure reproduction, as well as state registration of wildlife in the reserve fund of hunting grounds;
- 3) exercise other powers on ensuring of rights and legal interests of citizens in accordance with the legislation of the Republic of Kazakhstan.
 - 2. Local executive bodies of the Republic of Kazakhstan shall:
- 1) Is excluded by the Law of the Republic of Kazakhstan dated 03.07.2013 № 124-V (shall be enforced upon expiry of ten calendar days after its first official publication);
- 1-1) implement the state policy in the field of protection, reproduction and use of animal world;

- 2) carry out coordination and control and supervision of activity of bodies and organizations, subordinated them, in the field of protection, reproduction and use of animal world;
- 3) is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).
 - 3-1) approve the list of fishery water bodies and (or) areas of local importance;
- 4) make decisions on the allocation of hunting grounds to users of wildlife and the establishment of easements for the needs of hunting in the manner established by the legislation of the Republic of Kazakhstan;
- 4-1) is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).
- 5) Is excluded by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication);
- 5-1) organize the measures on rendering assistance to the animals in the case of their diseases, the threat of their death on the unfixed hunting lands and fisheries waters and (or) plots;
- 5-2) conduct competitions on fixation of hunting lands for the users of animal world for the needs of hunting farm;
- 5-3) excluded by Law № 399-VI of the RK of 02.01.2021 (shall be enacted ten calendar days after the date of its first official publication);
- 5-4) organize activities for introduction, reintroduction and hybridization, as well as for artificial breeding of animals, including rare and endangered species of animals;
 - 5-5) organize and ensure protection of animal world in the reserve fund of hunting lands;
 - 5-6) organize and ensure protection in the reserve fund of fisheries waters and (or) plots;
- 5-7) on the basis of scientific research, certification of fishery reservoirs and (or) sites is carried out;
 - 5-8) establish the zones of recreational fishing;
 - 5-9) establish the boundaries of fisheries areas, open and close the fisheries (fishery plot);
- 5-10) issue permits for the use of wildlife or permits for the use of fish resources and other aquatic animals, with the exception of research fishing in fishery waters located in two or more regions, as well as rare and endangered animal species;
- 5-11) organize and (or) ensure the conduct of scientific research and design and survey work in the field of protection, reproduction and use of animal world in the region;
- 5-12) organize reclamation fishing in the event of a threat of freezing on fishery reservoirs and (or) areas of the reserve fund on the basis of a decision of the territorial division of the authorized body in the field of fisheries;

- 5-13) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication);
- 5-14) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication);
 - 5-15) subsidize processing of fish products;
- 5-16) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication);
- 6) exercise other powers, imposed on local executive bodies by the legislation of the Republic of Kazakhstan in the interests of local state management.

Footnote. Article 10 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 05.07.2011 № 452-IV (shall be enforced from 13.10.2011); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 13.06.2013 № 102-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 03.07.2013 № 124-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); № 399-VI of 02.01.2021 (shall come into force ten calendar days after its first official publication); № 75-VII of 24.11.2021 (shall take force ten calendar days after its first official publication); dated 06.04.2024 № 71-VIII (for enforcement procedure, see Art. 2); dated 12.06.2025 № 194-VIII (for the procedure for entry into force, see Article 2); № 213-VIII of 17.07.2025 (shall be put into force since 01.01.2026).

Article 11. The state accounting, cadaster and monitoring of animal world

Footnote. The title as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication).

The state accounting, cadaster and monitoring of animal world, containing collection of details on the state and geographic range of species of animals, on their numbers, results of routine observations, volumes of their practical use and other necessary data shall be maintained for ensuring of protection, reproduction and use of animal world.

Footnote. Article 11 as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 11-1. The state monopoly in the field of protection, reproduction and use of animal world

- 1. The activity for the removal of sturgeon species from natural habitat, except for fishing for reproduction purposes and research fishing, their purchase, processing and sale of their caviar and other products shall belong to the state monopoly and shall be carried out exclusively by the state enterprise.
- 1-1. Artificial reproduction of sturgeon species of fish and implementation of fish-planting material and individuals of sturgeon species in live form after removing sexual products from them for reproductive purposes shall be related to the activity, technologically related to the activity of state monopoly in the field of protection, reproduction and use of animal world.
- 2. Individuals and legal entities, purchased the products from the subjects of the state monopoly shall have a right to carry out its further processing and sale.
- 3. In cases of bycatch of sturgeon species of fish, and also in the event of discovery of ownerless fishing gear with sturgeon species, viable individuals shall to be released into the natural habitat or transferred to state enterprises that produce young sturgeon species in the state order, and non-viable individuals shall be subject to release into natural habitat.
- 4. The removal of sturgeon species from natural habitat for reproductive purposes and scientific research shall be carried out in accordance with the fishing rules.
- 5. The price of products sold by a state monopoly entity shall be set by the authorized body in the field of fisheries in agreement with the antimonopoly body.

Footnote. The Law is supplemented by Article 11-1 in accordance with the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (shall be enforced from 01.01.2011); as amended by the Laws of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15.06.2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after its first official publication).

Chapter 3. Protection of animal world Article 12. Basic requirements on protection of animal world

- 1. An activity that affects or may affect on the state of animal world, habitat, breeding conditions and migration paths of animals shall be carried out with observance of requirements, as well as ecological, ensure safety and reproduction of animal world, habitat and compensation of causing and caused damage, as well as inevitable.
- 2. Upon carrying out of activity that affects or may affect on the state of animal world and habitat shall be provided observation of the following basic requirements:

- 1) preservation of biological diversity and integrity of animal communities of animal world in the state of natural freedom;
- 2) preservation of habitat, breeding conditions, migration paths and places of concentration of objects of animal world;
 - 3) scientifically reasonable, rational use and reproduction of objects of animal world;
- 4) regulation the numbers of objects of animal world for the purposes of preservation of biological balance of nature;
- 5) reproduction of animal world, including artificial breeding of species of animals, as well as valuable, rare and endangered with subsequent release to the habitat.
- 3. Is excluded by the Law of the Republic of Kazakhstan dated 03.07.2013 № 124-V (shall be enforced upon expiry of ten calendar days after its first official publication).

Footnote. Article 12 as amended by the Laws of the Republic of Kazakhstan dated 09.01.2007 № 213 (the order of enforcement sees Article 2); dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 03.07.2013 № 124-V (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 13. Protection of animal world

Protection of animal world shall be carried out by:

- 1) establishment and compliance with rules, norms and standards for protection, reproduction and use of animal world objects;
- 2) establishment of restrictions and prohibitions for the use of animal world; 3) protection of valuable, rare and endangered species of animals;
 - 4) prevention of violations of established rules of the use of animal world;
- 5) organization of protection of habitat, breeding conditions, migration paths and places of concentration of animals;
- 6) fixation of territories, water area for the users of animal world with obligations, imposed on them on protection of objects of animal world;
 - 7) creation of specially protected natural territories;
 - 8) artificial breeding of species of animals;
- 9) rendering of assistance to the animals in the case of diseases, the threat of death upon natural disasters and due to other reasons;
- 10) organization of scientific researches in the field of protection, reproduction and use of animal world;
 - 11) promotion of ideas of protection and sustainable use of objects of animal world;
 - 12) promotion activity of individuals and legal entities on protection of animal world;
- 13) education for citizens in the spirit of humane and solicitous attitude to the animal world.

Footnote. Article 13 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement sees Article 2); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 14. Establishment restrictions and prohibitions for the use of animal world for the purposes of its preservation and reproduction

- 1. For the purposes of preservation and reproduction of objects of animal world shall be established:
 - 1) limitation of terms of the use of animal world;
 - 2) prohibitions of methods, means and types of weapons of acquisition;
 - 3) change of regulations of seizure of objects of animal world;
 - 4) restriction the number of users of animal world;
 - 5) restrictions on the place of use of wildlife;
- 6) measures to combat illegal, unreported, unregulated fishing and illegal trade in products made from aquatic biological resources.
 - 2. The ground for establishment of restrictions and prohibitions shall be:
 - 1) violation of sex-age structure of animal population;
 - 2) reduction the numbers of animals;
 - 3) deterioration of habitat;
- 4) the need of creation of the zones of peace in the places of mass congestion of animals in the period of migration and breeding.
- 5) the need to provide conditions for fish spawning, depending on hydrometeorological conditions.
 - 3. For the purposes of preservation of objects of animal world shall be prohibited:
 - 1) plant destruction and other actions, deteriorating the habitat conditions of animals;
- 2) plowing of lands with settlement of animals, inhabiting in colonies, closer twenty meters from the beginning of location of their holes around the perimeter or without preliminary resettlement in another place;
- 3) destruction and damage of houses and nests of animals, collection of eggs without permission of the authorized body;
- 4) riding on boats, motor boats and other floating vehicles with an engine in the designated places of mass nesting of swimming birds and spawning of fishes during their breeding;
- 5) flight of airplanes, helicopters and other aircrafts over the territory of mass seal habitats, wild ungulate animals and colonial birds below one kilometer;
- 6) destruction of animal habitat, damage of seeds of fodder plants, protective plantings, sodium soils, troughs for animals, signposts, structures, intended for hunting and fish farm;

- 7) seizure of rare and endangered species of animals, their parts or derivatives without the decision of the Government of the Republic of Kazakhstan;
- 8) extraction of objects of the animal world in excess of the established limit and outside the terms specified in permits for the use of the animal world, permits for the use of fish resources and other aquatic animals or vouchers, as well as in resting areas and reproductive areas;
- 9) production of objects of animal world with the use of types of weapons, methods and means of acquisition of animals, not provided by the rules of hunting and fishing;
- 10) extraction of objects of the animal world with the use of explosive devices, toxic chemicals and other chemical preparations (with the exception of the use of toxic chemicals and other chemical preparations for extermination of field rodents, as well as in cases of rabies epizootics and other animal diseases);
- 11) production without permission of the authorized body or the authorized body in the field of fisheries of the introduction, reintroduction and hybridization of animals;
- 12) destruction or damage of the posts, floating identifying marks and name plates, indicating the boundaries of wintering pits, spawning, fisheries plots and places, prohibited for fishing.
- 13) operation of water intake and discharge facilities without fish protection devices, as well as not meeting the established requirements.
- 4. Restrictions and prohibitions shall be introduced in recognition of geographic, climatic features of areas (areas of distribution) of animal habitats for the purposes of preservation of objects of animal world.

Footnote. Article 14 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 10.01.2011 № 383-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15.07.2011 № 461-IV (shall be enforced from the date of its official publication); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29. 03. 2016 № 479-V (shall be enforced upon expiry of wenty-one calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); № 11-VII of 23.02.2021 (shall come into force ten calendar days after the date of its first official publication); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after its first official publication).

- 1. Rare and endangered species of animals shall be entered into red book of the Republic of Kazakhstan in accordance with the Law of the Republic of Kazakhstan "On specially protected natural territories".
- 2. Protection of rare and endangered species of animals shall be carried out by the state. Individuals and legal entities shall be obliged to take measures on protection of rare and endangered species of animals.
- 3. The seizure of rare and endangered animal species, their parts or derivatives shall be allowed in exceptional cases by the decision of the Government of the Republic of Kazakhstan on biological justification grounds for:
- 1) breeding in specially created conditions for scientific, reproductive, commercial purposes, as well as for subsequent release into the habitat;
- 2) is excluded by the Law of the Republic of Kazakhstan dated 05.11.2022 № 157-VII (shall be enforced upon expiry of ten calendar days after the day of its first official publication);
 - 3) scientific researches;
 - 4) selection;
 - 5) development of national types of hunting.
 - 4. Shall not be allowed the actions that may lead to:
 - 1) death of rare and endangered species of animals;
- 2) reduction the numbers or habitat destruction of rare and endangered species of animals, except for the cases, specified in paragraph 3 of this Article.
- 5. Management, transportation, sale, offering for sale and purchase of rare and endangered species of animals, their parts and derivatives shall be carried out in the manner established by the legislation of the Republic of Kazakhstan.

Footnote. Article 15 is in the wording of the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); as amended by the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 05.11.2022 № 157-VII (shall be enforced upon expiry of ten calendar days after the day of its first official publication); dated 19.04.2023 № 223-VII (shall be enforced ten calendar days after the date of its first official publication).

Article 16. Protection of animals when using pesticides, toxic chemicals, mineral fertilizers and other preparations

Footnote. The title of Article 16 as amended by the Law of the Republic of Kazakhstan dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication).

Application, storage and transportation of pesticides, toxic chemicals, mineral fertilizers and other preparations must ensure the safety of the animal world and its habitat.

In order to protect the animal world, maximum permissible norms for the use of pesticides , toxic chemicals, mineral fertilizers and other preparations are established.

Footnote. Article 16 as amended by the Law of the Republic of Kazakhstan dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication).

Article 17. Measures on preservation of habitat, breeding conditions, migration paths and places of concentration of animals upon planning and carrying out of economic and other activity

- 1. Upon placement, planning and construction of inhabited localities, enterprises, structures and other objects, carrying out of industrial processes and operation of transport vehicles, improvement of current and introduction of new technological processes, introduction into economic turnover of unused, coastal, swamped, occupied territories by bushes, reclamation of land, use of forest resources and water objects, conducting of geological exploration works, extraction of commercial minerals, determination of places of grazing and driving of livestock animals, development of tourist routes and organization of places of public entertainment shall be provided and carried out the measures on preservation of habitat and breeding conditions of objects of animal world, migration paths and places of concentration of animals, as well as provided inviolability of plots, presenting the special value as habitat of wild animals.
- 2. Measures must be developed and implemented to ensure the preservation of habitats, breeding conditions, migration routes, and areas of animal concentration during the operation, placement, design, and construction of railway, highway, pipeline, and other transport routes, as well as power transmission and communication lines, water management, and hydraulic structures.
- 3. The subjects, carrying out economic and other activity, specified in paragraphs 1 and 2 of this Article shall be obliged to:
- 1) in agreement with the authorized body or authorized body in the field of fisheries, within the limits of its competence, when developing a feasibility study and design and estimate documentation, provide for the means to implement measures to ensure compliance with the requirements of subparagraphs 2) and 5) of paragraph 2 of Article 12 of this Law;
- 2) compensate for damage caused to fish resources and other aquatic animals, including unavoidable, in the amount determined in accordance with the procedure, approved by the authorized body in the field of fisheries, through the implementation of measures, providing for the release of fishery material into fishery reservoirs, restoration of spawning grounds, fishery reclamation of water bodies, construction of the infrastructure of the reproduction complex or reconstruction of existing complexes for the reproduction of fish resources and other aquatic animals, financing of scientific research, activities for the protection of rare and

endangered fish and other aquatic animals, as well as the creation of artificial spawning grounds in the floodplain and marine environment (reefs), on the basis of an agreement concluded with the department of the authorized body in the field of fisheries.

By decision of the department of the authorized body in the field of fisheries, the entities carrying out the economic and other activities specified in paragraphs 1 and 2 of these Articles shall compensate for the damage provided for in subparagraph 2) of part one of this paragraph by transferring funds to the accounts of state enterprises of the reproduction complex to finance construction, reconstruction (modernization) and its material and technical equipment.

Footnote. Article 17 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 25.01.2012 № 548-IV (the order of enforcement see Article 2); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); dated 09.04.2025 № 179-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after its first official publication).

Article 18. Protection of animal world in the specially protected natural territories

Protection of animal world in the specially protected natural territories shall be carried out in accordance with the legislation of the Republic of Kazakhstan in the field of specially protected natural territories.

Footnote. Article 18 is in the wording of the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2);

Article 18-1. Fisheries waters and (or) plots of extrinsic value

Footnote. Article 18-1 is excluded by the Law of the Republic of Kazakhstan dated 15. 06 . 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 19. Artificial breeding of species of animals

Footnote. The title as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication).

- 1. Artificial breeding of the species of animals shall be carried out for the purposes of:
- 1) preservation and increasing the numbers of species of animals, as well as valuable, rare and endangered;
 - 2) scientific researches;

- 3) introduction, reintroduction and hybridization of species of animals;
- 4) use of species of animals in the entrepreneurial activity.
- 2. Artificial breeding of valuable, rare and endangered species of animals for the purposes of preservation and increasing of their numbers with subsequent release to the habitat shall be carried out at the expense of budget funds and other sources, not prohibited by the legislation of the Republic of Kazakhstan.
- 2-1. For the purpose of artificial breeding of sturgeon species of fish, state enterprises of the reproductive complex that carry out state order can use fish obtained as by-catch for the production of drugs for hormonal stimulation of fish spawning, and also for the production of feed for their keeping.
- 2-2. as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication).
- 2-3. State enterprises of the reproduction complex, fulfilling the state order, have the right to conclude contracts with entities of the fisheries industry for the provision of services for fishing for reproduction purposes.
- 3. Animals, the species of which are included to the annex I of the Convention on international trade by the endangered species of wild fauna and flora may be the subject of the trade in the cases of their breeding in captivity and (or) semi-free conditions.
- 3-1. The animals, the species of which are included in the annex I of the Convention on international trade by the endangered species of wild fauna and flora, bred in captivity and (or) semi-free conditions may be the subject of the trade only in the cases of their registration in the administrative body.
- 3-2. When notifying the administrative body for the Convention on International Trade in Endangered Species of Wild Fauna and Flora about the commencement of activity for artificial breeding of animals listed in Annexes I and II of the Convention, shall be indicated:
- 1) number and date of the permit of the administrative authority for importation in case of import of animals;
- 2) the number and date of the certificate of origin of the yield, or a purchase and sale contract with the number and date of registration in the administrative body in the case of domestic origin of animals shall be attached.
- 4. Artificial breeding of animal species shall be carried out for the purpose of entrepreneurial activity at the expense of individuals and legal entities and other sources not prohibited by the legislation of the Republic of Kazakhstan.
- 5. Unified system of marking of caviar of sturgeon species of fishes for the trade in the internal and external markets shall be established in the Republic of Kazakhstan.

Sale of unmarked caviar of sturgeon species of fishes shall not be allowed.

6. Export of sturgeon species of fish taken from natural habitat and their fertilized caviar shall be carried out by the decision of the Government of the Republic of Kazakhstan outside the Republic of Kazakhstan in a live form.

Footnote. Article 19 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29. 03. 2016 № 479-V (shall be enforced upon expiry of twenty-one calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); № 399-VI of 02.01.2021 (shall go into effect ten calendar days after the date of its first official publication); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication).

Article 20. Introduction, reintroduction and hybridization of species of animals, import into the Republic of Kazakhstan and export from the Republic of Kazakhstan of animals

Introduction, reintroduction and hybridization of animal species, import into the Republic of Kazakhstan and export from the Republic of Kazakhstan of animals shall be carried out in accordance with the Environmental Code of the Republic of Kazakhstan.

Footnote. Article 20 is in wording of the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 20-1. Acclimatization of fish resources and other water animals

Footnote. Article 20-1 is excluded by the Law of the Republic of Kazakhstan dated 16.05.2014 № 203-V (shall be enforced upon expiry of six months after its first official publication).

Article 21. Rendering of assistance to the animals in the cases of mass diseases, the threat of their death upon natural disasters and due to other reasons

1. Provision of assistance to animals in cases of mass diseases, the threat of their death during natural disasters and due to other reasons in the assigned hunting grounds and fishery water bodies and (or) areas shall be carried out by subjects of hunting and fisheries and local executive bodies of the Republic of Kazakhstan, and in other grounds and water bodies - by local executive bodies of the Republic of Kazakhstan. Depending on the significance of the territory and the incident, assistance in the specified cases may be provided by the Government of the Republic of Kazakhstan and international organizations.

- 1-1. Assistance to animals in cases of oil spills at sea and in the safety zone shall be carried out on the basis of an analysis of the total environmental benefit.
- 2. Acquisition of animals in the disaster areas, as well as animals, threatened with death, except for the catching of fishes in the fish-kill dangerous reservoirs and (or) plots shall not be allowed.
- 3. In cases of a threat of overfishing, which shall inevitably lead to the death of fish, and the impossibility of eliminating such a threat by conducting ongoing fishery reclamation of water bodies or their parts, the authorized body in the field of fisheries or the department with its territorial subdivisions on the basis of scientific recommendations shall have the right to make a decision on reclamation fishing.
- 4. When detecting fish kills, all measures should be taken to save fish resources and other aquatic animals, including reclamation fishing.
- 5. Assistance to prevent the threat of mass death of fish and other aquatic animals, as well as to eliminate the consequences of freezing, shall be carried out in the manner determined by the authorized body in the field of fisheries.

Footnote. Article 21 as amended by the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); № 401-VI of 02.01.2021 (shall take effect on 01.07.2021); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 09.04.2025 № 179-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (the procedure for entry into force, see Article 2).

Article 22. Scientific researches in the field of protection, reproduction and use of animal world

- 1. Scientific researches in the field of protection, reproduction and use of animal world shall be carried out for the purposes of:
 - 1) assessment of the state of the animal world;
 - 2) regular study of the state of rare and endangered species of animals;
 - 3) permanent study of the epizootic situation;
 - 4) participation in the international scientific and research programs;
- 5) substantiation of norms and standards and development of scientific recommendations in the field of protection, reproduction and use of animal world;
- 6) substantiation of measures on preservation of biological diversity, protection, reproduction and use of animal world;
- 7) development of legal and economic mechanisms of protection, reproduction and use of objects of animal world;
- 8) the state accounting and cadaster of animal world, interfarm hunting management and certification of fisheries waters and (or) plots.

- 2. Scientific researches in the field of protection, reproduction and use of the animal world shall be carried out annually at the expense of budgetary funds and other sources not prohibited by the legislation of the Republic of Kazakhstan.
- 3. Annual assessment of the state of the animal world in the assigned hunting grounds shall be carried out at the expense of the individuals and legal entities to whom they are assigned.

Assessment of the state of fish resources and other aquatic animals in the assigned fishery waters and (or) areas of local importance shall be carried out once every three years at the expense of the individuals and legal entities to whom they are assigned.

4. The use of wildlife (with the exception of fish resources and other aquatic animals) for scientific research purposes shall be carried out at any time of the year and the permitted mining tools on the basis of permits for the use of wildlife issued by an authorized body or local executive body.

The quota for the seizure of wildlife objects (with the exception of fishing objects) for scientific research shall be established by republican associations of public associations of hunters and hunting entities within the limit for the seizure of animal species that are hunting objects approved by the authorized body.

4-1. The use of fish resources and other aquatic animals for scientific research purposes shall be carried out at any time of the year and permitted fishing gear on the basis of a permit for the use of fish resources and other aquatic animals issued by the authorized body in the field of fisheries or the local executive body.

The quota for the withdrawal of fishing facilities for scientific research shall be established by the territorial subdivisions of the department of the authorized body in the field of fisheries within the limit for the withdrawal of fish resources and other aquatic animals approved by the authorized body in the field of fisheries.

5. Scientific research in the field of protection, reproduction and use of animal world shall be carried out by legal entities accredited as subjects of scientific and (or) scientific and technical activities, in the manner prescribed by the legislation of the Republic of Kazakhstan.

Footnote. Article 22 as amended by the Laws of the republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 03.07.2013 № 124-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); № 34-VII of 30.04.2021 (shall come into force ten calendar days after the date of its first official publication); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after its first official publication).

Article 22-1. Ichthyological observations

- 1. Ichthyological observations shall be carried out by territorial divisions of the department of the authorized body in the field of fisheries.
- 2. The main areas of ichthyological observations shall be: control over the state of fishery water bodies; conducting control fishing; collection of biological materials on the status of ichthyofauna; study of migration routes, spawning periods and fishing load on water bodies; definition of the by-catch of whitebait, spawning grounds and wintering pits; development of proposals for regulating the regime of fishing, including the transfer of the deadline for the ban during the spawning period, depending on hydrometeorological conditions, fishing gear, organization of fish-reclamation works and fishery reclamation of water bodies; accounting of freezing water reservoirs and organization of measures for prevention and elimination of freezes; inspection of water intake, waste disposal facilities and identification of damage causing and caused on fish resources and other aquatic animals in the absence of fish protective devices.
- 3. The data of ichthyological observations shall be used to prepare recommendations for organization of protection, reproduction and sustainable use of fish resources and other aquatic animals.

Footnote. Chapter 3 is supplemented by Article 22-1 in accordance with the Law of the Republic of Kazakhstan dated 15.06.2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); as amended by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Chapter 4. Use of animal world Article 23. Use of animal world

- 1. Use of animal world shall be carried out in the procedure of general and special use.
- 2. The objects of animal world shall be provided for use in accordance with requirements of the legislation of the Republic of Kazakhstan.
- 3. The special use of animal world includes the use of objects of animal world and products of their life activity with withdrawal from the environment, with the exception of capturing for the purpose of reintroduction.
- 4. Use of objects of animal world, as well as their useful properties without seizure from the habitat shall be referred to the general use of animal world.
- 5. Use of animal world in the territory of the state forest fund and specially protected natural territories shall be carried out in recognition of requirements of forest legislation of the Republic of Kazakhstan and the legislation of the Republic of Kazakhstan in the field of specially protected natural territories.
- 5-1. The use of animals that are bred and kept in captivity and (or) semi-free conditions in farming hunting facilities shall be determined by their owners.

6. Use of objects of animal world as biological weapons shall be prohibited.

Footnote. Article 23 as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 24. Types of the use of animal world

In the territory of the Republic of Kazakhstan shall be allowed the following types of the use of animal world:

- 1) hunting;
- 2) fishing, including seizure of invertebrate animals and marine mammals;
- 3) use of animals, not referring to the objects of hunting and fishing for the economic purposes;
- 4) use of animals for scientific, cultural, educational, aesthetic purposes, as well as for prevention of epizootics;
 - 5) use of useful properties and products of vital activity of animals;
 - 6) use of species of animals in the reproductive purposes.

Footnote. Article 24 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 25. The terms of the use of animal world

- 1. The terms of the use of animal world shall not be established for the general use.
- 2. The terms shall be established for the special use of animal world:
- 1) upon hunting farm management from ten to forty-nine years;
- 2) upon fishing farm management from five to forty-nine years, in the fish-kill dangerous reservoirs and (or) plots from one to five years.

The periods specified in subparagraph 1) of the first part of this paragraph are established depending on the period of consolidation of hunting grounds, determined by the tender committee, which shall include representatives of the authorized body or department with its territorial divisions, local executive body of the region, scientific organizations and republican associations of public associations of hunters and hunting entities on the basis of inter-farm hunting, qualification requirements for participants in the competition for the consolidation of hunting grounds, a plan for the development of hunting entities.

The deadlines specified in subparagraph 2) of the first part of this paragraph shall be established by the department of the authorized body in the field of fisheries or its territorial subdivisions on the basis of certification of fishery water bodies and (or) plots.

The terms of the use of animal world for the types of the use of animal world, not listed in the first part of this paragraph shall consist not more than one year.

Footnote. Article 25 is in the wording of the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (the order of enforcement see Article 2); dated 15.06.2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after its first official publication).

Article 26. Provision of the animal world for the use

- 1. Wildlife for special use shall be provided on the basis of permits for the use of wildlife and permits for the use of fish resources and other aquatic animals issued in the manner prescribed by the legislation of the Republic of Kazakhstan.
- 1-1. Is excluded by the Law of the Republic of Kazakhstan dated 15.07.2011 № 461-IV (shall be enforced from the date of its official publication).
 - 1-2. Issuance of permissions shall be denied in the cases:
 - 1) provision of details, specified in the application, not in full extent;
 - 2) unreliability of details, specified in the application;
 - 3). Excluded by Law $\[Mathemath{\mathbb{N}}\]$ 401-VI of the RK of 02.01.2021 (shall be enacted on 01.07.2021)

1-3. A certificate of the origin of the catch shall be issued by the territorial subdivisions of the department of the authorized body in the field of fisheries at the place of catch of fish and other aquatic animals within two working days from the date of receipt of the application, when the applicant provides permission to use the animal world with fish resources and other aquatic animals.

It shall be allowed to issue a certificate of the origin of the catch within the allocated quota for the withdrawal of fish resources and other aquatic animals, documents confirming the actual catch of fish, within the framework of reclamation fishing.

2. General use of animal world, as well as amateur (sports) fishing in the reserve fund of fisheries waters and (or) plots with seizure up to five kilograms for one fisherman for departure shall be carried out without any permissions.

Footnote. Article 26 as amended by the Laws of the Republic of Kazakhstan dated 09.01.2007 № 213 (the order of enforcement see Article 2); dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 15.07.2011 № 461-IV (shall be enforced from the date of its official publication); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 10.07.2012 № 36-V (shall be

enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); № 34-VII of 30.04.2021 (shall go into effect ten calendar days after the date of its first official publication); от 12.06.2025 № 194-VIII (порядок введения в действие см. ст. 2). dated 12.06.2025 № 194-VIII (for the procedure for entry into force, see Article 2).

Article 27. Rights and obligations of the users of animal world

- 1. Users of animal world upon special use shall have a right to:
- 1) carry out only those types of the use of animal world, which are permitted them;
- 2) use of the objects of animal world in accordance with conditions of their provision;
- 3) ownership for extracted objects of animal world, as well as hunting and fishing trophies and upon that received product, as well as for their transportation and sale;
- 4) Is excluded by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication);
 - 5) conclude agreements with individuals and legal entities for the use of animal world;
- 6) construction of temporary structures for the need of hunting and fish farms in accordance with established easement;
- 6-1) provide the rangers with service weapons in accordance with the norms and rules established by the legislation of the Republic of Kazakhstan;
- 7) carry out breeding and conduct amateur (sport) hunting on the territory reserved for breeding (in captivity and (or) semi-free conditions), and also to use independently reproduced animals;
- 8) transfer of fishery reservoirs and (or) their plots for fishing to fishery reservoirs and (or) their plots for fish farming in accordance with the requirements provided for by the Law of the Republic of Kazakhstan "On aquaculture";
- 9) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication).
 - 2. Users of animal world upon special use shall be obliged to:
- 1) comply with the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of animal world;
- 2) make payments in a timely manner for the use of animal world in the manner established by the tax legislation of the Republic of Kazakhstan;
- 3) is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication);

- 4) is excluded by the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication);
- 5) prevent deterioration of the animal habitat by complying with environmental requirements stipulated by the Environmental Code of the Republic of Kazakhstan, except for cases of pollution from the insurmountable consequences of natural disasters;
- 6) use of animal world by the methods, safe for population and the environment, preventing violations of the integrity of natural communities and abusive handling of the animal;
- 7) conduct an annual accounting of the number of used objects of the animal world for hunting subjects and submit reports in accordance with the procedure established by the legislation of the Republic of Kazakhstan;
- 7-1) submit administrative data to the authorized body according to the forms approved in agreement with the authorized body in the field of state statistics, intended for collecting administrative data;
- 7-2) submit administrative data to the authorized body in the field of fisheries in accordance with the forms approved in agreement with the authorized body in the field of state statistics intended for collecting administrative data;
- 8) ensure the protection and reproduction of wildlife, including rare and endangered species, and prevent a decrease in their numbers beyond the limits of their natural fluctuations :
- 9) carry out the necessary measures to ensure the reproduction of wildlife in accordance with the development plans of hunting and fishing entities;
- 10) not impede the implementation of verifications for the purposes of the state control and supervision of compliance with the requirements of the legislation of the Republic of Kazakhstan on protection, reproduction and use of animal world, conducted in accordance with Article 49 of this Law;
 - 11) provide an easement for carrying out of:

control fishing - to the territorial subdivision of the department of the authorized body in the field of fisheries;

scientific and research fishing – to the individuals and legal entities; amateur (sports) fishing – to the individuals; amateur (sports) hunting – to the individuals;

- 12) carry out current fishery melioration in the assigned fishery water body and (or) area based on scientific recommendations;
 - 13) set the name plates;
- 14) keep a log of the catch of fish resources and other aquatic animals (fishing log) at each fish collection point, team or link and present it at the request of officials of the department of the authorized body in the field of fisheries and its territorial divisions;

- 15) in accordance with the procedure and within the timeframe established by the authorized body, send to territorial department of the agency information on agreements concluded with individuals and legal entities for the use of wildlife, including their dissolution;
- 16) in accordance with the procedure and terms established by the authorized body in the field of fisheries, provide it with information on the catch of fish resources and other aquatic animals, the fishing situation on the reservoir, issued permits in accordance with the forms approved by the authorized body in the field of fisheries;
- 17) obtain the environmental permission in accordance with the Environmental Code of the Republic of Kazakhstan upon implementation of environmental emissions;
- 18) provide the rangers with means of transport, communication, special clothing with signs of distinction, a badge of the ranger, a certificate of the ranger;
 - 19) comply with the requirements of fire safety;
- 20) issue permits for amateur (sport) hunting and amateur (sport) fishing to individuals in paper or electronic form upon their oral, written or electronic application;
 - 21) approve the internal regulation of hunting farm;
- 22) notify the department of the authorized body about the creation of zoological collection.
 - 23) observe the fishing effort standards;
- 24) stock the assigned fishery water body and (or) area with fish in accordance with the development plans of fishery entities based on the recommendations of a scientific organization;
- 25) is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).

The submission of notifications shall be carried out by applicants to the office of the authorized body or the authorized body in the field of fisheries at least ten working days before the start of activities or actions in the manner prescribed by the Law of the Republic of Kazakhstan "On permits and notifications."

- 3. Users of animal world upon general use shall have a right to use the objects of animal world for meeting of their cultural and aesthetic needs.
 - 4. Users of animal world upon general use shall be obliged to:
- 1) comply with the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of animal world;
- 2) prevent deterioration of the animal habitat by observing environmental requirements stipulated by the Environmental Code of the Republic of Kazakhstan, except in cases of pollution from the insurmountable consequences of natural disasters;
 - 2-1) comply with the requirements of fire safety;

- 3) execute other requirements on protection, reproduction and use of animal world, provided by the legislative acts of the Republic of Kazakhstan.
- 5. Unlawful intervention in activity of the users of animal world shall be prohibited on the part of the state bodies, civil servants and organizations.

Footnote. Article 27 as amended by the Laws of the Republic of Kazakhstan dated 31.01.2006 № 125; dated 21.01.2010 № 242-IV(the order of enforcement see Article 2); dated 03.12.2011 № 505-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); № 399-VI of 02.01.2021 (shall take effect ten calendar days after the date of its first official publication); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (for the procedure for entry into force, see Article 2).

Article 28. Fee for the use of animal world

- 1. General use of animal world shall be carried out for free.
- 2. Special use of animal world shall be carried out on a paid basis in accordance with the tax legislation of the Republic of Kazakhstan.

Article 29. Limits and quotas for the use of animal world

1. The limit of seizure of objects of animal world - maximum allowable volume of seizure of objects of animal world, upon that their natural reproduction and numbers are preserved.

The limit for the removal of wildlife objects shall be determined in accordance with the biological justification prepared on the basis of materials for accounting the number, monitoring of wildlife objects and their habitat, scientific research, and approved by the authorized body or the authorized body in the field of fisheries within the competence.

The limit of seizure of objects of animal world, migrating through the several states or inhabiting in the reservoirs of interstate significance shall be determined on the basis of international agreements, and in its existence – in the manner established by the legislation of the Republic of Kazakhstan.

The limit for the withdrawal of fish resources and other aquatic animals shall be established for the period from January 1 to December 31 of the corresponding year.

The limit for the taking of game species shall be fixed for the period from 15 February of the current year until 15 February of the following year.

2. The quota for the seizure of wildlife objects, with the exception of fishing objects, shall be a part of the limit for the seizure of wildlife objects that shall be the object of hunting, established by republican associations of public associations of hunters and hunting entities for users of the animal world.

The quota for the seizure of fishing facilities shall be a part of the limit for the seizure of fish resources and other aquatic animals, established by the territorial subdivisions of the department of the authorized body in the field of fisheries.

The volume of fish seized by reclamation fishing carried out as an anti-jamming measure or to replace ichthyofauna in the implementation of lake and commodity economic activities shall not be included in the general fishing limit.

Footnote. Article 29 is in the wording of the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); as amended by the Law of the Republic of Kazakhstan dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); № 241-VI as of 02.04.2019 (shall be enforced ten calendar days after its first official publication); № 34-VII of 30.04.2021 (shall be enacted ten calendar days after the date of its first official publication); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (for the procedure for entry into force, see Article 2).

Article 30. The grounds of termination of the right of use of animal world

The right of use of animal world shall be terminated in the cases:

- 1) is excluded by the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication);
 - 2) expiration of a term of the use of animal world;
 - 3) termination of activity of the user of animal world;
- 4) systematic violation of the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife in the conduct of hunting, as well as the terms of the contract for the conduct of hunting or fishing;
- 4-1) systematic gross violation of the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife in the conduct of fishing.

Gross violations of the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife include violations that result in damage to fish resources in an amount exceeding ten times the monthly calculation indicator established by the law on the republican budget and effective as of January 1 of the relevant financial year;

- 5) is excluded by the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication);
 - 6) deprivation of permissions for the special use of animal world;
- 7) Is excluded by the Law of the Republic of Kazakhstan dated 10.01.2011 № 383-IV (shall be enforced upon expiry of ten calendar days after its first official publication).

Footnote. Article 30 as amended by the laws of the Republic of Kazakhstan dated 10.01.2011 № 383-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15.06.2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).

Article 31. Norms and standards in the field of protection, reproduction and use of animal world

- 1. Norms and standards in the field of protection, reproduction and use of animal world shall determine the maximum permissible quantitative and qualitative value of indicators necessary to ensure conservation of animal world, habitat and its sustainable use.
- 2. Norms and standards in the field of protection, reproduction and use of animal world shall be established on the basis of scientific research and shall be mandatory in planning and conducting economic and other activities, carrying out measures in the field of protection, reproduction and use of animal world.

Footnote. Article 31 is in wording of the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).

Chapter 5. Hunting Article 32. Concept and types of hunting

1. Hunting - a type of special use of animal world, upon that the seizure of species of animals, being the object of hunting from the habitat is carried out.

Search, investigation and persecution for the purposes of acquisition, attempt of acquisition of objects of animal world, being of persons in the hunting lands with uncovered hunting weapons or extracted products of hunting, with hunting dog, let off the leash, with hunting birds of prey shall be equated with the hunting.

- 2. Hunting shall be subdivided into the following types:
- 1) commercial hunting;
- 2) amateur (sports) hunting, as well as national hunting.
- 3. Commercial hunting acquisition of species of animals, being the object of hunting for the purposes of entrepreneurial activity.
- 4. Amateur (sports) hunting acquisition of species of animals, being the object of hunting for the purposes of meeting of sports, aesthetic needs and for personal consumption of extracted products.

National hunting is an unarmed extraction of animal species, which are an object of amateur (sports) hunting, using hunting predatory birds and dogs of Kazakh breeds.

5. Hunting shall be performed in the fixed hunting lands, unless otherwise established by the authorized body.

Footnote. Article 32 as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

Article 33. The right to hunt

- 1. The right to hunt shall have individuals upon condition of:
- 1) reaching the age of twenty-one years old, if hunting is carried out using firearms;
- 2) attainment the age of fourteen, if the hunting is carried out with the use of other types of weapons of acquisition, hunting dogs and hunting birds of prey, permitted by hunting regulations;
 - 3) availability of a hunter's certificate;
 - 4) obtaining permits for the use of animal world or vouchers.
- 2. The right to hunt for foreigners on the territory of the Republic of Kazakhstan shall arise on the basis of an agreement for hunting with a hunting entity and obtaining permission for the use of animal world, as well as permission of the internal affairs bodies to import firearms and cartridges to them into the territory of the Republic of Kazakhstan and export them from Kazakhstan.

Footnote. Article 33 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); of June 15, 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 11.07.2022 № 136-VII (shall be enforced upon expiry of sixty calendar days after the day of its first official publication).

Article 33-1. Republican associations of public associations of hunters and subjects of hunting farm, as well as public associations of fishermen and subjects of fish farm

- 1. Republican associations of public associations of hunters and subjects of hunting farm, as well as public associations of fishermen and subjects of fish farm shall be created for the protection of interests of individuals and legal entities, carrying out an activity in the field of protection, reproduction and sue of animal world.
- 2. Republican associations of public associations of hunters and subjects of hunting farm, as well as public associations of fishermen and subjects of fish farm shall be noncommercial

organization. Republican associations of public associations of hunters and subjects of hunting farm, as well as public associations of fishermen and subjects of fish farm shall have a right to create their structural subdivisions (branches and representatives).

Republican associations of public associations of hunters and hunting entities, as well as public associations of fishermen and fishing entities shall be subject to accreditation in the manner approved by the authorized body, the authorized body in the field of fisheries. Accreditation of republican associations of public associations of hunters and hunting entities, as well as public associations of fishermen and fishing entities shall be carried out by an authorized body, an authorized body in the field of fisheries on the basis of their application and at their own expense.

An activity of republican associations of public associations of hunters and subjects of hunting farm, as well as public associations of fishermen and subjects of fish farm shall be regulated by the Laws of the Republic of Kazakhstan and charter.

- 3. Republican associations of public associations of hunters and subjects of hunting farm shall carry out the following types of activity:
- 1) coordination of activity public associations of hunters and subjects of hunting farm, breeding of hunting dogs, game breeding;
- 2) representation of interests of public associations of hunters and subjects of hunting farm in the state bodies and organizations, as well as in the non-state and international organizations;
- 3) participation in preparation of regulatory legal acts and other documents on issues of protection, reproduction and use of animal world;
 - 4) participation in the monitoring and accounting of objects of animal world;
- 5) allocate quotas of seizure of objects of animal world, except for the fish resources and other water animals;
 - 6) maintain accounting and registration of hunting birds of prey, used for hunting;
- 7) issuance of hunter's certificates in electronic form, submission to the territorial subdivisions of the department of the authorized body of reporting on the issued hunter's certificates in the prescribed form;
- 8) is excluded by Law of the Republic of Kazakhstan № 156-VI as of 24.05.2018 (shall be enforced ten calendar days after its first official publication);
- 9) participation in keeping records of the number of species of animals that are objects of hunting at the assigned hunting grounds, analysis and generalization of data provided by the subjects of hunting farm, and making recommendations to the territorial divisions of the department of the authorized body to prepare a limit for withdrawal of objects of the animal world;
 - 10) organization of reproduction of animal world;
 - 11) participation in the competition commission on fixation of hunting lands;

- 12) Is excluded by the Law of the Republic of Kazakhstan dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication);
- 13) organization of development of national types of hunting with the use of hunting birds of prey and hunting dogs; 14) other activity, provided by the Charter and not prohibited by the legislation of the Republic of Kazakhstan.

The document, issued by the republican association of public associations of hunters and subjects of hunting farm on passing of hunting minimum shall be the basis for issuance of certificate of hunter.

- 4.Republican association of public associations of fishermen and subjects of fish farm shall carry out the following types of activity:
- 1) coordination of the activities of public associations of fishermen and fisheries for the development of fisheries, aquaculture, reproduction of fish resources and other aquatic animals, amateur (sports) fishing;
- 2) presentation of interests of public associations of fishermen and subjects of fish farm in the state bodies and organizations, as well as in the non-state and international;
- 3) participation in preparation of regulatory legal acts and other documents on issues of protection, reproduction and use of animal world;
 - 4) participation in the monitoring and accounting of objects of animal world;
- 5) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
- 6) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication);
 - 7) participation in distribution of subsidies, allocated for the development of fish farm;
- 8) participation within the context of the state social order in the organization of assistance to the fish resources and other water animals in the cases of mass disease, threat of their death, threat of fish-kill and due to other reasons, as well as in saving of young fishes;
- 9) Is excluded by the Law of the Republic of Kazakhstan dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication);
- 10) other activity, provided by the Charter and not prohibited by the legislation of the Republic of Kazakhstan.

Footnote. Chapter 5 is supplemented by Article 33-1 in accordance with the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (the order of enforcement see Article 2); as amended by the Laws of the Republic of Kazakhstan dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); № 156-VI as of 24.05.2018 (shall be enforced ten calendar days

after its first official publication); dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); dated 14.07.2022 № 141-VII (shall be enforced upon expiry of ten calendar days after the day of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Chapter 5-1. Preservation and reproduction of Kazakh breeds of dogs

Footnote. The law is supplemented by Chapter 5-1 in accordance with the Law of the Republic of Kazakhstan dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

Article 33-2. The National center of Kazakh breeds of dogs

- 1. The National center of Kazakh breeds of dogs (hereinafter- the National center) is a structural subdivision of a specialized organization determined by the authorized body to carry out activities for the conservation and reproduction of Kazakh breeds of dogs.
 - 2. The tasks of the National Center shall be:
 - 1) carrying out activities for the preservation and reproduction of Kazakh breeds of dogs;
- 2) training of experts and preparation of specialists in working with Kazakh breeds of dogs, including cynological activities;
- 3) breeding and raising of purebred dogs of Kazakh breeds with the issuance of a certificate of origin;
- 4) maintenance of the Unified pedigree book in accordance with the procedure determined by the authorized body;
- 5) development of standards for Kazakh breeds of dogs together with individuals and legal entities engaged in cynological activities;
- 6) organization and conduct of tests, exhibitions, reviews, competitions of various ranks of dogs of Kazakh breeds;
- 7) carrying out other activities not prohibited by the legislation of the Republic of Kazakhstan.

Article 33-3. Features of state regulation in the field of preservation and reproduction of Kazakh breeds of dogs

State regulation in the field of preservation and reproduction of Kazakh breeds of dogs shall be carried out through:

- 1) conducting scientific researches of a fundamental and applied nature in the field of preservation and reproduction of Kazakh breeds of dogs, selection for the preservation, development, and use of Kazakh breeds of dogs in accordance with the legislation of the Republic of Kazakhstan;
- 2) testing and approbation of breeding achievements in the field of preservation and reproduction of Kazakh breeds of dogs in accordance with the legislation of the Republic of Kazakhstan;

3) keeping records of dogs of Kazakh breeds in accordance with the Law of the Republic of Kazakhstan "On Responsible Treatment of Animals".

Article 33-4. Financing activities in the field of preservation and reproduction of Kazakh breeds of dogs

- 1. Financing of activities in the field of preservation and reproduction of Kazakh breeds of dog, including the National center shall be carried out through state support at the expense of budgetary funds, as well as other sources not prohibited by the legislation of the Republic of Kazakhstan.
 - 2. The main form of state support is the financing of activities aimed at:
 - 1) preservation and reproduction of Kazakh breeds of dogs;
 - 2) protection of purebred Kazakh breeds of dogs.

Article 33-5. Scientific research in the field of preservation and reproduction of Kazakh breeds of dogs

Scientific research in the field of preservation and reproduction of Kazakh breeds of dogs shall be carried out by scientific organizations of the Republic of Kazakhstan.

Scientific organizations, together with the authorized body, the National center, as well as individuals and legal entities engaged in cynological activities shall carry out the development of state scientific and technical programs in the field of preservation and reproduction of Kazakh breeds of dogs.

Chapter 6. Fishing Article 34. Types of fishing

- 1. Fishing shall be subdivided into the following types:
- 1) commercial fishing;
- 2) amateur (sports) fishing;
- 3) scientific and research fishing;
- 4) test fishing;
- 5) ameliorative fishing;
- 6) fishing for the reproductive purposes;
- 7) is excluded by the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).
- 2. Commercial fishery is the complex process of removing fish and other aquatic animals from their habitat with fishing gear that allows large numbers of fish and other aquatic animals to be caught simultaneously.

Commercial fishing shall be carried out for the purposes of entrepreneurial activity.

Commercial fishing may be carried out by coastal and offshore fishing.

Coastal fishing – catching of fish resources and other water animals, carrying out in the fixed fisheries waters and (or) plots.

Offshore fishing is fishing of fish and other aquatic animals in the open part of bodies of water (seas, lakes) outside the boundaries of assigned areas, as well as in the fishing zone and common water area.

Commercial fishing shall not be allowed in the zones of recreational fishing, established by the local executive bodies.

Fishing for shared aquatic biological resources shall take place in the territorial waters, the fishing zone and the common water area.

3. Amateur (sports) fishing – catching of fish resources and other water animals for the purposes of meeting of sports and aesthetic needs, conducting of sporting events, as well as for the personal consumption of caught products, carrying out by the fishing weapons, allowing perform only the piece fishing (non-commercial fishing weapons).

Amateur (sports) fishing may be carried out with the subsequent release of the caught fish to the natural habitat in a living form.

4. Scientific - research fishing is catching of fish resources and other aquatic animals for the purpose of carrying out scientific research in the field of protection, reproduction and use of animal world.

Research fisheries outside the limit for the taking of fish and other aquatic animals shall be permitted in bodies of water where no previous wildlife assessment has been carried out.

5. Test fishing – a catching of fish resources and other water animals for the purposes of control of the state of fish fauna, efficiency determination of reproduction of fish resources and other water animals, crop capacity of tiny fishes, fish capacity of reservoirs.

Control fishing in fishery reservoirs and (or) areas used for lake-commodity and (or) cage economic activities shall be carried out in order to determine the volume of farmed fish and the compliance of the species composition specified in the fish-breeding and biological justification in the field of aquaculture, in accordance with fishing rules.

6. Ameliorative fishing – a catching of fish resources and other water animals, including total catching, catching of coarse species of fishes, catching in the fish-kill dangerous reservoirs and (or) plots, directed to increase of fish capacity of reservoirs, preservation of fish resources and other water animals and improvement conditions of their habitat and breeding.

Total capture - withdrawal of the entire commercial stock of fish resources and other aquatic animals in a reservoir or withdrawal of commercial stock of certain species or ecological groups of fish. Total capture can be used as reclamation fishing and for research purposes, as well as for the purpose of replacing ichthyofauna on the basis of fish breeding and biological justification in the field of aquaculture in the conduct of lake and commercial economic activities.

7. Fishing for the reproductive purposes - a catching of fish resources and other water animals for the purposes of their reproduction.

- 8. Excluded by the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).
- 9. The procedure for implementation of fishing shall be determined by the rules of fishing. Footnote. Article 34 is in the wording of the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); as amended by the Laws of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); № 11-VII of 23.02.2021 (see Article 2 for the enactment procedure); № 34-VII of 30.04.2021 (shall take effect ten calendar days after the date of its first official publication); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication).

Article 35. The right of fishing

- 1. The right of commercial fishing shall have the individuals and legal entities in the existence of:
 - 1) permits for the use of fish resources and other aquatic animals;
- 2) agreements with the territorial subdivision of the department of the authorized body in the field of fisheries for the management of fisheries.
- 2. Individuals and legal entities shall have the right to research and reclamation fishing, as well as fishing for reproductive purposes, if they have permission to use fish resources and other aquatic animals, and for amateur (sports) fishing permission to use fish resources and other aquatic animals or vouchers.
- 3. Control fishing shall be carried out by the territorial subdivision of the department of the authorized body in the field of fisheries without permission to use fish resources and other aquatic animals in the manner determined by the Rules of fishing.

Footnote. Article 35 is in the wording of the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); as amended by the Laws of the Republic of Kazakhstan dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); № 399-VI of 02.01.2021 (shall come into force ten calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 36. Peculiarities of regulation of fishery activities in artificially created reservoirs and fish farms with a closed cycle of water supply

Footnote. Article 36 as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication).

Chapter 7. Hunting and fish farm management Article 37. Granting and termination of the right to conduct hunting, fishing farms

Footnote. The title of Article 37 is in the wording of the Law of the Republic of Kazakhstan dated 15.06.2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).

1. The right to conduct hunting farming shall be granted to citizens of the Republic of Kazakhstan and legal entities of the Republic of Kazakhstan on the basis of a decision of the local executive body of the region on securing hunting grounds, as well as an agreement on hunting farming concluded between the territorial subdivision of the department of the authorized body and the user of the animal wildlife.

The right to fish farming with the consolidation of fishery water bodies and (or) plots shall be provided to citizens of the Republic of Kazakhstan and legal entities of the Republic of Kazakhstan on the basis of a decision of the department of the authorized body in the field of fisheries or its territorial subdivision on the consolidation of fishery reservoirs and (or) plots, as well as a contract for fisheries, concluded between the territorial subdivision of the department of the authorized body in the field of fisheries and the user of the animal wildlife.

- 2. Entities of hunting and fish farms shall receive the right to seize objects of the animal wildlife within the quota from the moment of obtaining permission to use the animal wildlife and permission to use fish resources and other aquatic animals, and other individuals and legal entities after receiving a voucher from entities of hunting and fish farms or concluding an agreement with them for hunting.
- 2-1. Agreements for the management of hunting and fishing farms shall be terminated in the following cases:
 - 1) voluntary abandonment of hunting and fishing facilities;
- 2) expiration of the validity of agreements for the management of hunting and fishing farms;
- 3) termination of the activities of entities engaged in hunting and fishing, except for the cases provided for in paragraph 4 of this Article;
- 4) systematic violation of the terms of agreements for the management of hunting and fishing farms;
- 5) systematic violation of the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of animal world;

- 6) seizure of land plots on which hunting grounds or fishery reservoirs and (or) plots are fixed, for state needs in accordance with the procedure established by the legislation of the Republic of Kazakhstan.
- 3. Is excluded by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication).
- 4. In the event of the death of an individual with whom a contract for the conduct of fishing has been concluded, the right to use a fishery reservoir and (or) plot shall be inherited in the manner prescribed by the civil legislation of the Republic of Kazakhstan.

Footnote. Article 37 is in the wording of the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); as amended by the Laws of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); № 399-VI of 02.01.2021 (shall go into effect ten calendar days after the date of its first official publication); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 38. Hunting lands

1. Hunting lands – a territory and water area, being the habitat of the species of animals, presenting the object of hunting, where shall be carried out or may be carried out the hunting and hunting farm management.

The wetlands may be included into the composition of hunting lands upon condition of their correspondence to the features, specified in the first part of this paragraph.

- 2. The assignment of the territory and water area to the hunting lands, determination of their boundary, and establishment of relevant easements and categories of hunting farm shall be carried out on the basis of results of interfarm hunting management in the manner established by the legislation of the Republic of Kazakhstan.
- 3. Economic activity in the hunting lands, not related with the use of objects of animal world shall be carried out by the methods and means, ensuring preservation of objects of animal world and their habitat.
- 4. The right of possession, use and disposal of lands and water areas, on which are the hunting lands shall not grant a right for the use of the species of animals, being the objects of hunting.
 - 5. The hunting shall be prohibited:
 - 1) without certificate of the hunter;
- 2) with fire weapons without permission of bodies of internal affairs for the right of its storage and use;

- 3) with birds of prey and hunting dogs, including those temporarily imported for hunting purposes, without registering them in the manner established by the legislation of the Republic of Kazakhstan;
 - 4) weapons of acquisition, the use of which is not provided by the rules of hunting;
 - 5) for the reproductive purposes without agreement with the subject of hunting farm;
- 6) in the reserve fund of hunting lands, unless otherwise established by the authorized body;
- 7) on the lands of inhabited localities, as well as in the territories adjacent to them in the distance, not ensuring the safety of use of hunting fire weapons according to the rules of hunting;
- 8) on the land of industry, transport, communication, defence without permission of the authorized body;
- 9) on the animals, being in the distressed and helpless state (saving from a storm, flood, fire, crossing the waters, in the ice, exhausted from starvation, sitting on the air holes of waterfowl);
- 10) for amateur (sports) purposes using air, auto, motor vehicles, snowmobiles, small boats with the engine running, night vision devices, laser designators, lighting and sound devices;
 - 11) in a state of alcoholic or drug intoxication or intoxication of other type;
 - 12) on the lands, occupied by agricultural crops, up to the termination of the harvest;
- 13) on the specially protected natural territories, except for the territory, where in the manner established by the legislation of the Republic of Kazakhstan the separate types of natural resource use is allowed;
 - 14) with the use of fire weapons for the beaver, otter, mink, muskrat;
- 15) with destruction and damaging of housing, except for the diggings the holes for the salvation of hunting dogs;
 - 16) with destruction of the dam, built by the beaver;
- 17) with the use of air, missile weapons (except for the use of bows and crossbows for performance of scientific and research and preventive works related to immobilization and injection of objects of animal world);
- 18) with the use of ammunition with bullets of armor-piercing, incendiary or discontinuous action with decenter of gravity;
 - 19) with the use in the slug guns of the home-made riffled auxiliary trunks (inserts);
- 20) with burning of wastelands, emergent vegetation, stubbing and destruction of other vegetation;
- 21) with the use of crossbows, clutching, grabbing, barnacles, cutting; device for the traps, trapping pits; through the establishment of large traps without identifying marks, tents,

over-weight, hooks, peaks, bird lime; smoking, driving on the glass ice, crust, deep snow and salt marshes viscous, sloping cane; the use of traps in the extraction of brown bear, ungulates and birds; hunting by boiler horseshoe;

- 22) using of nets; pouring out of burrows (with the exception of catching animals for their introduction, reintroduction, hybridization or captive keeping in coordination with the department of the authorized body);
- 23) with the use of explosive devices, toxic chemicals and other chemical preparations, with the exception of the use of toxic chemicals and other chemical preparations in the extermination of field rodents, as well as in cases of rabies epizootics and other animal diseases;
- 24) above the number of animals indicated in the permit for the use of animal world or voucher of animals' number;
- 25) other types of animals not indicated in the permit for the use of animal world or voucher;
 - 26) without a permit of the subject of hunting farm;
- 27) excluded by Law of the RK № 34-VII of 30.04.2021 (shall be enacted ten calendar days after the date of its first official publication);
 - 28) without decoy-duck or stuffed animal upon spring hunting to the drake duck;
- 29) unaccompanied of huntsman or the state inspector on protection, reproduction and use of animal world to the ungulate animals and brown bear;
- 30) for the amateur (sports) purposes to the marmot with the use of rifled weapon with caliber five full six tenths of millimeters under the ammunition side (circular) ignition;
 - 31) in the zones of peace and reproductive plots.

Footnote. Article 38 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement sees Article 2); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29. 06. 2016 № 479-V (effective after twenty-one calendar days after the date of its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); № 34-VII of 30.04.2021 (shall come into force ten calendar days after the date of its first official publication); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).

Article 39. Fisheries waters and (or) plots

1. Fishery water bodies and (or) areas - water bodies or their parts (rivers and equivalent canals, lakes, wetlands, reservoirs and other inland water bodies, territorial waters), as well as sea waters that shall be used or can be used for fishing and (or) fish farming or shall be important for the reproduction of their stocks.

Fishing and fish farming in water bodies that shall be part of specially protected natural areas with the status of a legal entity shall be regulated by the Law of the Republic of Kazakhstan "On specially protected natural areas."

- 2. Fisheries waters and (or) plots by significance shall be subdivided into international, republican and local.
- 3. Fisheries waters and (or) plots of international significance shall include the waters, located in the territory of the Republic of Kazakhstan and neighbouring states.

Fisheries waters and (or) plots of republican significance shall include the fisheries waters and (or) plots, located in the territory of two and more regions.

Fishery water bodies and/or areas of local importance shall include all other fishery water bodies and/or areas included in the list approved by the local executive body.

- 3-1. Fishery reservoirs and (or) areas for lake-commodity and (or) cage economic activities shall be provided in the manner prescribed by the Law of the Republic of Kazakhstan "On aquaculture."
 - 4. In the fisheries waters and (or) plots shall be prohibited to:
- 1) stop for the water transport within the places, prohibited for the fish culture, except for the stops at the village, fish processing points to install the beacons and in case of emergency;
- 2) transfer various types of fishing weapons from one fisheries water and (or) plots to other without special processing;
- 3) Is excluded by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication).
- 4) be in the reservoir or in close proximity to it with fishing weapons, the use of which is not provided by the rules of fishing;
- 5) storage of fish-on-fish strings, release of dead and sick fish from floating equipment and fishing gear into water and shore coastal strip, except for cases specified in paragraph 3 of Article 11-1 of this Law;
- 6) catching, receiving, buying and selling, transporting and storing fish less than the established fishing rules of the fishing measure;
- 7) Is excluded by the Law of the Republic of Kazakhstan dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication);
- 8) Is excluded by the Law of the Republic of Kazakhstan dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication);
 - 9) individuals and legal entities to deliver and accept fish without specifying the species;
- 10) perform simultaneous setting of two and more nets (scarfwise), as well as begin the setting of net to the complete sample ashore of previous net;
- 11) movement of all types of water transport with engines turned on during the period prohibited for fishing in fishery reservoirs and (or) areas, as well as in places prohibited for

fishing, without coordination with the territorial subdivision of the authorized body in the field of fisheries;

12) within the sanitary protection zones and water areas, the acquisition and sale of fish resources and other aquatic animals by individuals and legal entities without permits for the use of fish resources and other aquatic animals and without paperwork provided for by the fishing Rules.

On fishery water bodies and (or) areas provided in the prescribed manner to aquaculture entities for lake and commodity and (or) cage economic activities in accordance with the Law of the Republic of Kazakhstan "On aquaculture," the actions provided for in subparagraphs 2) and 5) of part one of this paragraph shall be prohibited.

- 5. The fishing shall be prohibited:
- 1) near water management and hydraulic engineering structures, locks and bridges, on channels connecting lakes with each other and the main river, feeder canals and drainage systems, in front of the mouths of rivers and canals outside the boundaries determined by the fishing rules;
 - 2) fishing weapons, the use of which is not provided by the rules of fishing;
- 3) in wintering pits in winter, on spawning grounds during spawning and other areas in terms and places established by the authorized body in the field of fisheries on the basis of biological justification issued by the relevant scientific organizations;
- 4) by the floating crafts, not registered and not indicated by the registration numbers in the manner established by the legislation of the Republic of Kazakhstan;
- 5) fishing gear without tags indicating the name of the organization and parameters of the fishing gear according to the permit for the use of fish resources and other aquatic animals;
 - 6) fixed weapons for production of sturgeon in the sea and rivers;
 - 7) in a state of alcoholic or drug intoxication or intoxication of different type;
 - 8) by methods, which are not allowed by the rules of fishing, restrictions and prohibitions;
- 9) Is excluded by the Law of the Republic of Kazakhstan dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication);
- 10) with the occupation of fishing weapons for more than two-thirds the width of the river or ducts;
- 11) installation of fixed fishing weapons in a staggered order, trap nets and secrets within a radius of five hundred meters from the mouth of rivers and water flows, falling canals;
- 12) at a distance closer than five hundred meters near water management and hydraulic engineering structures, locks, and bridges during commercial fishing;
- 13) in places of concentration and on migration routes of fish resources and other aquatic animals during their reproduction, in places and within the terms established by the authorized body in the field of fisheries on the basis of biological justification issued by the relevant scientific organizations;

- 14) with the use of explosive devices, toxic chemicals and other chemicals, as well as firearms;
- 15) with the use of types of fishing tools and methods not included in the list of approved for use commercial and non-commercial types of fishing tools and methods without the permission of the authorized body in the field of fisheries.

Footnote. Article 39 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 15.07.2011 № 461-IV (shall be enforced from the date of its official publication); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 09.04.2025 № 179-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (for the procedure for entry into force, see Article 2).

Article 39-1. Wetlands

- 1. Wetlands natural (except for the sea, the depth of which at the ebb exceed six meters) and artificial water areas, being the places of mass habitation, nesting, reproduction of semi-aquatic species of animals, including rare and endangered.
 - 2. Wetlands shall be subdivided by significance into the international and republican.
- 3. Wetlands of international significance shall include the lands, included in the list of wetlands of international significance in accordance with the international treaties.
- 4. Wetland of republican significance shall include all the other lands, included in the list of wetlands of republican significance in the manner established by the legislation of the Republic of Kazakhstan.
- 5. The measures on protection and reproduction of animal world including rare and endangered shall be provided in the wetlands.
- 6. For the purposes ensuring of preservation of wetlands, the development plan shall be approved by the authorized body.

Footnote. The Law is supplemented by article 39-1 in accordance with the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement sees Article 2)

Footnote. Article 39-2 as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (entry into force upon expiry of sixty calendar days after the day of its first official publication).

Article 40. Procedure of fixation of hunting lands and fisheries waters and (or) plots

1. Hunting grounds shall be assigned by a decision of the local executive body of the region based on the results of a tender.

Fishery water bodies and (or) areas shallbe fixed taking into account the basin principle by the decision of the department of the authorized body in the field of fisheries and (or) territorial subdivision based on the results of the competition.

The tender for assigning hunting grounds shall be held by a commission created in accordance with the rules for holding the competition, which includes representatives of the authorized body or department with its territorial subdivisions, the local executive body of the region, scientific organizations and republican associations of public associations of hunters and entities of the hunting industry, using the web portal of the state property register in electronic form in the manner determined by the rules for holding the tender.

The tender for assigning fishery water bodies and (or) plots shall be held using the web portal of the state property register in electronic form in the manner determined by the rules for holding the tender.

The tender shall include hunting grounds and fishery water bodies and (or) areas of the reserve fund, which, on the basis of inter-farm hunting management and certification of fishery water bodies and (or) plots, carried out at the expense of budgetary funds, shall be recognized as promising for the management of hunting and fisheries. The obligations given by the user when participating in the tender for the assignment of hunting grounds and fishery water bodies and (or) plots shall be mandatory conditions of contracts for the management of hunting and fisheries.

The authorized body in the field of fisheries shall form a list of reserve fishery reservoirs and (or) sites put up for the tender for fishery management, which shall be posted on the official Internet resources of the authorized body in the field of fisheries and local executive bodies of regions, cities of republican significance and the capital after agreement with the basin water inspectorate for the protection and regulation of water resources use in the manner and within the timeframes determined by the authorized body in the field of fisheries.

Fishery water bodies and (or) areas of local importance located entirely on land plots owned privately or in temporary land use by individuals and non-state legal entities shall be assigned to them without a competition on their application by the decision of the territorial subdivision of the authorized body in the field of fisheries, provided that they meet the established qualification requirements, with the exception of bitter-salty fishery water bodies and (or) areas

Fishery reservoirs and (or) areas, the term of consolidation for which expires, shall be provided without a tender at the request of individuals for whom they have been previously assigned, by extending the contract, provided that they shall comply with contractual obligations and the development plan of fisheries.

Hunting grounds, the term of consolidation for which expires, shall be provided without a tender at the request of individuals for whom they have been previously assigned by extending the contract, provided that they meet the qualification requirements and fulfill contractual obligations.

Freeze-hazardous water bodies and (or) areas of local importance, which, as a result of measures taken by the individuals for whom they have been assigned, have lost signs of freeze-hazardous, shall be provided upon their application after the expiration of the period of consolidation for a period of five to forty-nine years without a competition, provided that they meet the qualification requirements without holding a competition by the decision of the department of the authorized body in the field of fisheries or its territorial subdivisions.

For the purposes of reproduction within the framework of the state order, fishery reservoirs and (or) plots, fisheries (fishery sites) may be assigned to state enterprises of the reproduction complex for a period of up to forty-nine years.

- 2. The term of fixation shall consist:
- 1) for the hunting land for the purposes of hunting farm management from ten to forty nine years;
- 2) for fishery reservoirs and (or) areas for the purpose of fish farming from five to forty-nine years;
- 3) for the fish-kill dangerous reservoirs and (or) plots of local significance for the purposes of fish farm management from one to five years.
- 4) as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication).
- 2-1. Assignment of a fishery reservoir and/or site shall mean granting the right to conduct fisheries on a water body or part thereof, classified as a fishery reservoir and/or site, without granting the right to use the entire water body.
- 3. Hunting grounds and fishery reservoirs and (or) plots within the boundaries of previously organized hunting and fish farms shall be provided on the basis of materials from previous inter-farm hunting management and certification of fishery reservoirs and (or) plots.
- 4. The owner of land plot or land user shall be obliged to ensure provision of easement to the interested individuals and legal entities, as well as for the purposes of hunting and fish farm management and implementation of hunt and fishing in the plots, including in the territory or water area of hunting lands and fisheries waters and (or) plots.
- 5. Transfer and (or) assignment of rights and obligations to third parties under a fishing contract shall not be allowed, except for cases of reorganization of a legal entity in the form

of merger, accession or transformation and (or) transfer of such rights and obligations to a third party in the form of universal inheritance.

Footnote. Article 40 is in the wording of the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); as amended by the Laws of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 13.06.2013 № 102-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 29.09.2014 № 239-V (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after the day of its official publication); № 156-VI as of 24.05.2018 (shall be enforced ten calendar days after its first official publication); № 268-VI of 28.10.2019 (see Article 2 for the enactment procedure); dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 09.04.2025 № 179-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 40-1. Procedure for assigning fishery water bodies and (or) sites for the purpose of implementing investment projects in the field of fishery

Footnote. Article 40-1 as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication).

Article 41. Use of animals, not referring to the objects of hunting and fishing for the economic purposes

Use of animals, not referring to the objects of hunting and fishing for the economic purposes, as well as their useful properties and products of vital activity shall be carried out in the manner of general use.

Footnote. Article 41 is in the wording of the Law of the Republic of Kazakhstan dated 10.07.2012 № 36-V (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 42. Use of animals in the scientific, cultural and educational, educational and aesthetic purposes, as well as for creation of zoological collections

Use of animals except for the rare and endangered in the scientific, cultural and educational, educational and aesthetic purposes, as well as for creation of zoological collections shall be carried out in the manner established by the authorized body.

Article 42-1. Use of animals to prevent epizootics

The use of animals, other than rare and endangered animals, in order to prevent epizootics shall be carried out in the manner determined by the authorized body and the authorized body in the field of fisheries.

Footnote. Chapter 7 is supplemented with Article 42-1 in accordance with the Law of the Republic of Kazakhstan dated 15.06.2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); as amended by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 43. Specialized organizations

- 1. The Government of the Republic of Kazakhstan creates specialized organizations:
- 1) republican state enterprises for ensuring the protection, reproduction, and sustainable use of the animal world, as well as the preservation and reproduction of Kazakh breeds of dogs;
- 2) state institutions for ensuring the protection, reproduction, and sustainable use of the animal world.
- 2. Local executive bodies create specialized organizations state institutions to ensure the protection, reproduction, and sustainable use of the animal world.

Footnote. Article 43 is in the wording of the Law of the Republic of Kazakhstan dated 03.01.2023 № 185-VII (shall be enforced from 01.07.2023).

Article 43-1. Reproduction of animal species

The reproduction of animal species, except for fish and other aquatic animals, shall be carried out by individuals and legal entities based on biological justification and authorisation from the competent authority.

Reproduction of fish resources and other aquatic animals shall be carried out by individuals and legal entities on the basis of recommendations of scientific organizations in the field of protection, reproduction and use of fish resources and other aquatic animals.

Footnote. Chapter 7 is supplemented by Article 43-1 in accordance with the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); as amended by Law of the Republic of Kazakhstan № 156-VI as of 24.05.2018 (shall be enforced ten calendar days after its first official publication); № 401-VI of 02.01.2021 (shall take effect on 01.07.2021); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 43-2. Subsidizing fisheries

Footnote. Article 43-2 as excluded by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of sixty calendar days after the day of its first official publication).

Chapter 8. Regulation of the numbers of species of animals

Footnote. The title as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 44. The purposes of regulation of the numbers of species of animals

Footnote. The title as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication).

Regulation of the numbers of species of animals shall be carried out for the purposes:

- 1) protection of the population health;
- 2) prevention of diseases of livestock and domestic animals;
- 3) prevention of damage to the economy;
- 4) keeping of biological balance.

Footnote. Article 44 as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 45. The grounds of regulation of the numbers of species of animals

Footnote. The title as amended by the Law of the Republic of Kazakhstan dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication).

The grounds of regulation of the numbers of species of animals shall be:

- 1) occurrence of the threat of infection or disease of population, livestock and domestic animals by the diseases, the carriers of which shall be the objects of animal world;
 - 2) occurrence of the threat of significance damage to the economic;
- 3) violation of existing natural balance of animal world in their habitat, led to reduction the numbers of its separate species and other negative consequences;
- 4) occurrence of the threat of violation of hydrochemical and other regimes of reservoirs and (or) plots, which may lead to the fish-kill.

Regulation of the number of species of animals shall be carried out in accordance with the biological justification.

Footnote. Article 45 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2); dated 10.01.2011 № 383-IV (

shall be enforced upon expiry of ten calendar days after its first official publication); dated 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).

Article 46. Procedure of regulation of the numbers of species of animals

Footnote. Article 46 is excluded by the Law of the Republic of Kazakhstan dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication).

Chapter 9. Financing and economic incentive of measures on protection, reproduction and sustainable use of animal world Article 47. Financing of measures on protection, reproduction and sustainable use of animal world

- 1. Financing of measures on protection, reproduction and sustainable use of animal world shall be carried out at the expense of budget funds in accordance with the budget legislation of the Republic of Kazakhstan.
- 2. Financing of measures on protection, reproduction and sustainable use of animal world in the hunting lands and fisheries waters and (or) plots shall be performed at the expense of the funds of subjects of hunting and fish farm.
- 3. The public funds may be created for financing of measures on protection, reproduction and sustainable use of animal world in accordance with the legislation of the Republic of Kazakhstan, as well as not prohibited by the legislation of the Republic of Kazakhstan.

Footnote. Article 47 as amended by the Law of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement see Article 2).

Article 48. Economic incentive of protection, reproduction and sustainable use of animal world

Economic incentive (granting of privileges, preferences and the state support) of protection, reproduction and sustainable use of animal world shall be carried out in accordance with the legislative acts of the Republic of Kazakhstan.

Chapter 10. Control and supervision in the field of protection, reproduction and use of animal world

Footnote. The title of chapter 10 is in the wording of the Law of the Republic of Kazakhstan dated 29.12.2014 № 269-V (shall be enforced from 01.01.2015).

Article 49. State control and supervision in the field of protection, reproduction and use of animal world

- 1. State control and supervision in the field of protection, reproduction and use of wildlife shall be carried out in the form of inspection, preventive control with a visit to the subject (object) of control and preventive control without a visit to the subject (object) of control.
- 2. Inspection and preventive control with a visit to the subject (object) of control and supervision shall be carried out in accordance with the Entrepreneurial Code of the Republic of Kazakhstan.
- 3. Preventive control without a visit to the subject (object) of control and supervision shall be carried out in accordance with the Entrepreneurial Code of the Republic of Kazakhstan and this Law.
- 4. Preventive control without visiting the entities (object) of control and supervision shall be carried out by the authorized body and the authorized body in the field of fisheries, departments and their territorial subdivisions by comparing information obtained from various sources of information on their activities.
 - 5. The subjects of control and supervision are the inspected entities.
- 6. The goals of preventive control without a visit to the subject (object) of control and supervision shall be the timely suppression and prevention of violations, granting the subjects of control and supervision the right to independently eliminate violations identified as a result of preventive control without visiting the subject (object) of control and supervision, and reducing the administrative burden on them.
- 7. Preventive control without a visit to the subject (object) of control and supervision shall be carried out by analyzing the report submitted by the subjects of control and supervision, as well as other information on the activities of the subject of control and supervision.
- 8. In the event of detection of violations in the actions (inactions) of the subject of control and supervision based on the results of preventive control without visiting the subject (object) of control and supervision, a recommendation to eliminate the violations shall be drawn up and sent within ten working days from the date of detection of the violations.
- 9. A recommendation to eliminate violations must be handed over to the subject of control and supervision personally against signature or in another way, confirming the facts of sending and receiving.
- 10. A recommendation on elimination of violations sent by one of the following methods is considered delivered in the following cases:
 - 1) on purpose from the date of the note in the recommendation of receipt;
 - 2) by mail by registered mail;
- 3) electronically from the date of sending to the electronic address of the entity of control and supervision specified in the letter at the request of the authorized body or the authorized body in the field of fisheries, departments or their territorial subdivisions.
- 11. A recommendation to eliminate violations identified based on the results of preventive control without visiting the subject (object) of control and supervision shall be implemented within thirty working days from the day following the date of its delivery.

- 12. The subject of control and supervision, in case of disagreement with the violations specified in the recommendation on the elimination of violations, shall have the right to send an objection to the authorized body or authorized body in the field of fisheries, departments or their territorial subdivisions that sent the recommendation within five working days from the day following the day of delivery of the recommendation.
- 13. Failure to implement within the established time limit a recommendation to eliminate violations identified based on the results of preventive control without visiting the subject (object) of control and supervision shall entail the appointment of preventive control with a visit to the subject (object) of control and supervision by including it in the semi-annual list of preventive control with a visit to the subject (object) of control and supervision.
- 14. Preventive control without a visit to the subject (object) of control and supervision shall be carried out no more than once per quarter.

Footnote. Article 49 as amended by the Law of the Republic of Kazakhstan dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); with amendments introduced by the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 49-1. State control in the field of protection, reproduction and use of wildlife in terms of preventing unauthorized removal of wildlife objects

- 1. State control in the field of protection, reproduction and use of wildlife in terms of preventing unauthorized removal of wildlife objects shall be carried out in the form of inspections without notifying the subjects of control and supervision.
- 2. The inspection shall be carried out for compliance with the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife by examining the activities of the subjects of control and supervision in order to prevent unauthorized removal of wildlife objects.

The inspection shall be carried out on:

fishery reservoirs and (or) plots - by the department of the authorized body in the field of fisheries or its territorial subdivisions;

hunting grounds - by the department of the authorized body or its territorial divisions in the field of forestry, protection, reproduction and use of wildlife and specially protected natural areas.

- 3. The official of the department of the authorized body in the field of fisheries or its territorial subdivision, who shall carry out verification on fishery water bodies and (or) sites, shall verify:
 - 1) availability of a fisherman's certificate;

- 2) availability of a permit for the use of fish resources and other aquatic animals, as well as compliance of the number and species composition of caught fish with the permit for the use of fish resources and other aquatic animals;
- 3) availability of a log for accounting the catch of fish resources and other aquatic animals (a trade log) and compliance of the entered data on the volume and species composition of fish;
- 4) fishing gear and methods of fishing for compliance with the list of approved for use commercial and non-commercial types of fishing gear and methods, fishing rules and permission to use fish resources and other aquatic animals;
- 5) compliance with restrictions and prohibitions on the use of wildlife, their parts and derivatives:
 - 6) compliance with the commercial measure of fish and by-catch by fish species;
 - 7) availability of a voucher.
- 4. An official of the authorized body department or its territorial subdivision, who carries out an inspection on hunting grounds shall check:
 - 1) availability of a hunter's license;
 - 2) availability of a permit for the use of wildlife and a voucher;
- 3) availability of a permit for the storage, storage and carrying of civilian weapons and ammunition for them;
 - 4) availability of a passport for a hunting bird of prey or a hunting dog;
 - 5) availability of a contract on the use of wildlife with a hunting entity;
 - 6) availability of a log of animal harvesting (a trade log);
- 7) availability of a permit for the removal of animal species the numbers of which are subject to regulation;
- 8) the tools, methods and ways of harvesting animals, their sex and age composition for compliance with hunting rules;
- 9) compliance with restrictions and prohibitions on the use of wildlife, their parts and derivatives.
- 5. An official who arrives to conduct an inspection shall present an official ID or identification card to the subject of control and supervision.
- 6. The period for conducting an inspection in relation to the subject of control and supervision shall not exceed twenty-four hours.
- 7. If, during the course of and (or) as a result of the inspection, facts of a violation with the presence of elements of an administrative offence are revealed, the subject of control and supervision shall be brought to administrative responsibility in accordance with the Code of the Republic of Kazakhstan on Administrative Offences.
 - 8. During an inspection, officials shall have the right to:
- 1) have unimpeded access to the territory and premises of the subject (object) of control and supervision upon presentation of the documents specified in paragraph 5 of this Article;

- 2) carry out audio, photo and video recording.
- 9. During an inspection, an official shall not have the right to:
- 1) demand the provision of documents and information if they are not the objects of the inspection or do not relate to the subject of the inspection;
 - 2) disclose and (or) disseminate information obtained as a result of the inspection;
 - 3) make demands and make requests that are not related to the subject of the inspection.
 - 10. When conducting an inspection, officials shall be obliged:
- 1) to comply with the legislation of the Republic of Kazakhstan, the rights and legitimate interests of the subjects of control and supervision;
- 2) to conduct an inspection on the basis of and in strict accordance with the procedure established by this Article;
 - 3) to apply measures of rapid response in accordance with this Law;
- 4) to promptly and fully exercise the powers granted in accordance with the laws of the Republic of Kazakhstan to prevent, identify and suppress violations of the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife;
- 5) not to prevent the subject of control and supervision or its authorized representative from being present during the inspection, from providing explanations on issues related to the subject of the inspection;
- 6) to provide the subject of control and supervision with the necessary information related to the subject of the inspection;
 - 7) to ensure the safety of documents and information obtained as a result of the inspection
- 11. When carrying out an inspection, subjects of control and supervision shall have the right:
- 1) not to allow officials who have arrived to conduct the inspection to participate in the inspection if the documents specified in paragraph 5 of this Article are missing;
- 2) not to present documents and information if they are not related to the subject of the inspection;
- 3) to record the process of the inspection, as well as individual actions of the official carried out by him/her within the framework of the inspection, using audio and video equipment, without creating obstacles to the activities of the official;
- 4) to appeal decisions, actions (inaction) of officials to a superior official or to the court in the manner established by the legislation of the Republic of Kazakhstan.
 - 12. Subjects of control and supervision shall be obliged:
- 1) not to interfere with the implementation of inspections to prevent unauthorized seizure of wildlife objects, carried out in accordance with this Article;

2) to ensure unimpeded access of officials carrying out the inspection to the territory and premises of the subject (object) of control and supervision, subject to the requirements of paragraph 5 of this Article.

Footnote. Chapter 10 has been supplemented by Article 49-1 in accordance with the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); as amended by Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 49-2. Rapid response measures and the procedure for their application

- 1. In the course of implementation and (or) based on the results of state control, officials in the field of protection, reproduction and use of wildlife shall apply measures of rapid response in cases of identification of activities or individual types thereof, products (goods), services of the subject (object) of control and supervision that pose a direct threat to the rights and legitimate interests of individuals and (or) legal entities, the life and health of people, the environment.
- 2. Measures of rapid response shall be the methods of influencing subjects (objects) of control and supervision, applied in the course of implementation and (or) based on the results of an inspection, preventive control with a visit to the subject of control and supervision, the types of which are provided for by this Law.
 - 3. Rapid response measures include:

within the framework of state control and supervision in accordance with subparagraph 6) of paragraph 4 of Article 129 of the Entrepreneurial Code of the Republic of Kazakhstan:

- 1) detention, delivery to law enforcement agencies of persons who have committed unauthorized seizure of wildlife, with signs of a crime or criminal offense;
- 2) seizure from individuals and legal entities of illegally obtained wildlife, the tools for their extraction, as well as swimming and transport vehicles for transfer to law enforcement agencies.

within the framework of preventive control with a visit to the subject (object) of control and supervision and (or) inspection - suspension of the activity of the subject of control and supervision or its individual types.

- 4. The grounds for applying rapid response measures shall be violations of the requirements established by the legislation of the Republic of Kazakhstan, which are the subject of state control in accordance with Articles 129 and 143 of the Entrepreneurial Code of the Republic of Kazakhstan.
- 5. Officials in the field of protection, reproduction and use of wildlife in the course of implementation and (or) based on the results of state control, if violations of the requirements

that are the basis for the application of prompt response measures are detected, shall draw up a decree on the application of prompt response measures in the form approved by the authorized body or the authorized body in the field of fisheries.

The resolution on the application of rapid response measures shall be drawn up and handed over to the subject of control and supervision in accordance with Article 153 of the Entrepreneurial Code of the Republic of Kazakhstan.

After the supervision act is drawn up based on the results of state control on the basis of subparagraph 6) of paragraph 4 of Article 129 of the Entrepreneurial Code of the Republic of Kazakhstan, the official in the field of protection, reproduction and use of wildlife directly shall apply the rapid response measure.

6. In the event of a refusal to accept the resolution on the application of rapid response measures, when it is handed over in person, a corresponding entry shall be made in it and a video recording shall be made confirming the fact of the refusal to accept the resolution on the application of rapid response measures.

The resolution on the application of rapid response measures shall be sent to the legal address, location or actual address of the subject of control and supervision by letter with notification of its delivery.

- 7. Refusal to receive the resolution on the application of rapid response measures shall not be grounds for its non-fulfillment.
- 8. Violations of requirements identified during the implementation and (or) as a result of preventive control with a visit to the subject (object) of control and supervision and (or) inspection, which are the basis for the application of rapid response measures, shall be reflected in the act on the inspection results, as well as in the order to eliminate violations of the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife.
- 9. The subject of control and supervision shall be obliged to eliminate the identified violations of the requirements, which are the basis for the application of the rapid response measure within the timeframes specified in the order to eliminate the violations of the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife.
- 10. Upon expiration of the timeframes for eliminating the violations of the requirements specified in the order to eliminate the violations of the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife, an unscheduled inspection shall be carried out to control the elimination of the identified violations of requirements, which are the basis for the application of a rapid response measure

The effect of the resolution on the application of rapid response measures shall be terminated if the control and supervision body confirm the elimination of identified violations of the requirements that are the basis for the application of rapid response measures, based on

.

the act on the results of an unscheduled inspection in accordance with subparagraph 2-1) of paragraph 5 of Article 144 of the Entrepreneurial Code of the Republic of Kazakhstan.

- 11. In the event of failure to eliminate the identified violations of the requirements that are the basis for the application of rapid response measures, the measures shall be taken to bring the persons who committed the violations to justice in the manner established by the laws of the Republic of Kazakhstan.
- 12. Before the expiration of the periods stipulated by the order to eliminate violations of the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife, the subject of control and supervision shall be obliged to provide information on the elimination of identified violations of the requirements with the attachment of materials proving the fact of the violation elimination.

In the event of providing the information stipulated by part one of this paragraph, an unscheduled inspection shall be carried out in accordance with part two of paragraph 10 of this Article.

13. In the event of disagreement with the results of state control that entailed the application of rapid response measures, the subject of control and supervision may file a complaint to recognize the resolution on the application of rapid response measures as invalid and to cancel it.

The complaint shall be filed with a higher state body in the manner prescribed by Chapter 29 of the Entrepreneurial Code of the Republic of Kazakhstan, or with a court in the manner prescribed by the legislation of the Republic of Kazakhstan.

Filing a complaint shall not suspend the execution of the resolution on the application of rapid response measures.

- 14. The grounds for invalidating the resolution on the application of rapid response measures and for its cancellation shall be:
 - 1) absence of grounds for the application of rapid response measures;
- 2) application of a rapid response measure on a basis that does not correspond to the given measure;
- 3) the application of prompt response measures by the department of the authorized body or the authorized body in the field of fisheries or their territorial subdivisions on issues that shall not be within their competence.
- 15. Information on the application of rapid response measures shall be sent to the state body that carries out, within the limits of its competence, activities in the field of state legal statistics and special records, in the manner determined by the Prosecutor General's Office of the Republic of Kazakhstan.

Footnote. Chapter 10 has been supplemented by Article 49-2 in accordance with the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); as amended by the Law of

the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 49-3. State control in the field of protection, reproduction and use of wildlife over the activities of local executive bodies of regions, cities of republican significance, the capital

- 1. State control in the field of protection, reproduction and use of wildlife over the activities of local executive bodies of regions, cities of republican significance, the capital (hereinafter the inspected state body) shall be carried out in the form of periodic, unscheduled inspections and remote control in accordance with this Article.
- 2. Periodic verification shall be carried out on the basis of semi-annual plans developed and approved by the authorized body or the authorized body in the field of fisheries, no later than December 1 of the year preceding the year of inspection, and June 1 of the current calendar year.

The semi-annual plan for conducting periodic inspections includes:

- 1) the number and date of the plan approval;
- 2) the name of the state body;
- 3) the name of the state body being inspected, its location;
- 4) the subject of the inspection;
- 5) the terms of the inspection;
- 6) the signature of the person authorized to sign the plan.

The semi-annual plan of periodic inspections shall be a notification of the periodic inspection and shall be posted on the Internet resource of the department of the authorized body or the authorized body in the field of fisheries and their territorial subdivisions no later than December 10 of the year preceding the year of the inspection, and June 10 of the current calendar year.

Amendments and additions to the semi-annual plan for conducting periodic inspections shall be made in cases of liquidation, reorganization of the inspected state body, change of its name, as well as occurrence of an emergency of natural, man-made or social nature, introduction of a state of emergency, occurrence or threat of occurrence of the spread of an epidemic, outbreaks of quarantine objects and especially dangerous harmful organisms, infectious, parasitic diseases, poisoning, radiation accidents and related restrictions.

In the event of the cases specified in part four of this paragraph, the periodic inspection may be extended or suspended.

The deadlines for periodic inspections shall be set taking into account the amount of works to be done, as well as the tasks set, and should not exceed fifteen working days, with an extension of no more than fifteen working days. The period of the periodic inspection shall be interrupted when the periodic inspection is suspended and continue from the moment the periodic inspection is resumed.

Periodic inspections can only be extended once. The extension shall be carried out by the decision of the management of the department of the authorized body or the department of the authorized body in the field of fisheries or the heads of their territorial subdivisions. The extension of the period of periodic inspections shall be formalized by an additional order on the extension of the period of periodic inspections with the notification of the inspected state body, which shall indicate the date and number of the previous order on the appointment of the inspection and the reasons for the extension. Notification of the extension of the period of periodic inspection shall be handed over to the inspected state body by the department of the authorized body or the department of the authorized body in the field of fisheries or the heads of their territorial subdivisions one working day before the extension with a notification of delivery.

- 3. The following sources of information shall be used to form semi-annual plans for conducting periodic inspections:
- 1) results of monitoring reports and information, including through automated information systems;
- 2) the results of the analysis of information submitted by state bodies at the request of the department of the authorized body or the department of the authorized body in the field of fisheries and (or) their territorial subdivisions;
 - 3) results of previous state control and other inspections;
 - 4) results of remote control.

When analyzing and selecting local executive bodies of regions, cities of republican significance, the capital for forming semi-annual plans for conducting periodic inspections, data can be used in comparison with the same period of the previous year.

- 4. The inspection shall be carried out by visiting the inspected state body on the basis of an order on the appointment of an inspection, which specifies:
 - 1) the number and date of the order;
 - 2) the name of the state body;
- 3) surname, name, patronymic (if indicated in the identity document) and position of the person authorized to conduct the inspection;
 - 4) information about the specialists, consultants and experts involved in the inspection;
 - 5) the name of the inspected state body, its location;
 - 6) the subject of the appointed inspection;
 - 7) the type of inspection;
 - 8) the deadlines of the inspection;
 - 9) the basis for the inspection;
 - 10) the period under inspection;
 - 11) the rights and obligations of the inspected state body;
- 12) signature of the head of the inspected state body or its authorized person on receipt or refusal to receive the order;

13) signature of the person authorized to sign the order.

Orders on the appointment, extension, suspension and resumption of periodic inspections shall be signed by the leadership of the department of the authorized body or the department of the authorized body in the field of fisheries or the heads of their territorial subdivisions.

The start of the inspection shall be considered to be the date of delivery of the act on the appointment of the inspection to the inspected state body.

- 5. The grounds for an unscheduled inspection shall be:
- 1) monitoring compliance with requirements to eliminate the identified violations specified in the conclusion based on the results of the inspection and (or) remote control;
- 2) appeals from individuals and legal entities regarding specific facts of violations of the requirements of the legislation of the Republic of Kazakhstan in the field of protection, reproduction and use of wildlife;
- 3) a request from the prosecutor's office regarding specific facts of causing or threatening to cause harm to the rights and legitimate interests of individuals and legal entities, the state;
- 4) appeals from state bodies regarding specific facts of causing harm to the rights and legitimate interests of individuals and legal entities, the state, as well as regarding specific facts of violations of the requirements of the legislation of the Republic of Kazakhstan, failure to eliminate which entails causing harm to the rights and legitimate interests of individuals and legal entities, the state.

The department of the authorized body or the authorized body in the field of fisheries or their territorial divisions shall be obliged to notify the inspected state body about the start of an unscheduled verification at least one day before its start, indicating the subject of the inspection.

6. The period for conducting an unscheduled inspection must be no more than ten working days with an extension of up to ten working days.

The unscheduled inspection period can be extended only once. The extension shall be carried out by the decision of the management of the department of the authorized body or the department of the authorized body in the field of fisheries or the heads of their territorial subdivisions. The extension of the unscheduled inspection period shall be formalized by an additional order on the extension of the unscheduled inspection period with a notification of the inspected state body, which shall indicate the date and number of the previous order on the appointment of the inspection and the reasons for the extension. A notice of extension of the unscheduled inspection period shall be handed over to the inspected state body by the department of the authorized body or the authorized body in the field of fisheries or their territorial subdivisions one working day before the extension with a return receipt.

- 7. Unscheduled inspections shall not be conducted in cases of anonymous requests.
- 8. Remote control shall be conducted once a year without visiting the inspected state body by performing the following actions:
 - 1) monitoring the activities of the inspected state body;

- 2) requesting the necessary information related to the subject of the inspection;
- 3) calling the head of the inspected state body or its authorized representative in order to obtain the necessary information related to the subject of the inspection.

The period for conducting remote control shall not exceed ten working days. On the day of completion of remote control, a conclusion on the results of remote control (if any violations are present) shall be sent to the inspected state body.

- 9. If violations are detected as a result of remote control, a report shall be drawn up in triplicate, indicating:
 - 1) the number, date and place of drawing up the report;
 - 2) the name of the state body;
 - 3) the name of the inspected state body and its location;
 - 4) the basis and subject of remote control;
 - 5) the period and deadlines for conducting remote control;
- 6) the violations identified and requirements for their elimination, indicating the deadline for fulfilling the requirements and taking measures against the persons who committed the violations.

In this case, the deadline for fulfilling the requirements for eliminating the identified violations shall be at least ten working days from the date of delivery of the report;

7) signature of the official who carried out the remote control.

One copy of the conclusion on the results of remote control shall be sent to the verified state body in the form of a registered mail with return receipt or by means of an electronic document to the email address of the inspected state body or in any other available way. The second copy shall remain with the department of the authorized body or the department of the authorized body in the field of fisheries or their territorial subdivisions, the third copy shall be handed over in electronic form to the state body that shall carry out activities in the field of state legal statistics and special records within its competence.

If there are comments and (or) objections based on the results of remote control, the audited state body shall state them in writing and send them to the office of the authorized body or the office of the authorized body in the field of fisheries or to their territorial subdivisions within three working days from the date of delivery of the conclusion on the results of remote control.

The department of the authorized body or the authorized body in the field of fisheries or their territorial subdivisions, within their competence, must consider the comments and (or) objections of the audited state body and shall give a reasoned response within ten working days.

10. Based on the results of the inspection, a report shall be drawn up in triplicate.

The report on the results of the inspection shall indicate:

- 1) the number, date and place of drawing up the report;
- 2) the name of the state body;

- 3) the surnames, names, patronymics (if indicated in the identity documents) and positions of the persons who conducted the inspection;
 - 4) information about the specialists, consultants and experts involved in the inspection;
 - 5) the name of the state body being inspected, its location;
 - 6) the basis and subject of the inspection;
 - 7) the type of inspection;
 - 8) the period of the inspection;
 - 9) the duration of the inspection;
- 10) the violations identified and the requirements for their elimination, indicating the deadline for fulfilling the requirements and (or) taking measures against the persons who committed the violations;
- 11) information about familiarization with or refusal to familiarize themselves with the conclusion of the persons present during the inspection, their signatures or a record of refusal to sign;
 - 12) the signature of the officials who conducted the inspection.

Documents related to the results of the inspection, or their copies, shall be attached to the conclusion on the results of the inspection, if any.

11. The first copy of the conclusion on the results of the audit in electronic form shall be handed over to the state body carrying out activities in the field of state legal statistics and special records within its competence, the second copy shall be handed over to the audited state body in hard copy against signature or in electronic form (to the head or his authorized person) for familiarization and taking measures to eliminate the identified violations and other actions, the third copy remains with the department of the authorized body or the department of the authorized body in the field of fisheries or in their territorial subdivisions.

If there are comments and (or) objections based on the results of the audit, the audited state body shall state them in writing and send them to the office of the authorized body or the authorized body in the field of fisheries or their territorial subdivisions within three working days from the date of delivery of the conclusion on the results of the audit. The official who conducted the audit shall make an appropriate entry in the report on the results of the audit.

The department of the authorized body or the authorized body in the field of fisheries or their territorial subdivisions, within their competence, must consider the comments and (or) objections of the audited state body and give a reasoned response within ten working days.

- 12. In the absence of violations of the requirements established by the legislation of the Republic of Kazakhstan, during the inspection, a corresponding entry shall be made in the conclusion on the inspection results.
- 13. The end of the inspection period shall be considered to be the day when the inspection results report is delivered to the inspected state body no later than the inspection completion date specified in the order scheduling the inspection (additional order extending the inspection period, if any).

14. The requirements for the elimination of the identified violations specified in the inspection results report or remote-control report shall be mandatory for the inspected state bodies.

After the expiration of the period for eliminating the identified violations specified in the conclusion on the results of inspection or remote control, the inspected state body, within the period established in the conclusion on the results of inspection or remote control, shall be obliged to provide information to the department of the authorized body or the authorized body in the field of fisheries and (or) their territorial subdivisions on the elimination of identified violations.

In cases of failure to provide or incomplete provision by the inspected state body within the established period of information on the elimination of identified violations, the department of the authorized body or the authorized body in the field of fisheries and (or) their territorial subdivisions shall appoint an unscheduled inspection.

The inspected state body shall attach materials proving the fact of the violation elimination to the information provided on the elimination of the identified violations. In this case, an unscheduled inspection shall not be required.

- 15. Officials of the department of the authorized body or the department of the authorized body in the field of fisheries and (or) their territorial subdivisions during the inspection shall have the right:
 - 1) have unimpeded access to the territory and premises of the inspected state body;
- 2) receive documents (information) on paper and electronic media or copies thereof for inclusion in the report on the results of inspection or remote control, as well as access to automated databases (information systems) in accordance with the subject of the inspection;
 - 3) involve specialists, consultants and experts;
 - 4) carry out audio, photo and video recording;
 - 5) extend, suspend and resume the inspection in the cases specified in this Article.
- 16. Officials of the authorized body or the authorized body in the field of fisheries who arrived for the inspection shall be obliged to present to the inspected state body:
 - 1) an order on the inspection appointment;
 - 2) an official ID (identification card).
- 17. The inspected state bodies or their authorized representatives, when conducting the inspection, shall have the right:
- 1) not to submit documents and information if they are not related to the subject of the inspection or remote control;
- 2) on violations revealed as a result of verification or remote control, if additional time and (or) financial costs are necessary, no later than three working days, apply to the department of the authorized body or the department of the authorized body in the field of fisheries or their territorial subdivisions with an application to extend the time for eliminating violations;

- 3) appeal against the conclusion on the results of the inspection or remote control, as well as the actions (inaction) of officials of the department of the authorized body or department of the authorized body in the field of fisheries or their territorial subdivisions in the manner prescribed by the legislation of the Republic of Kazakhstan;
- 4) not to comply with prohibitions not based on the law of officials of the department of the authorized body or the department of the authorized body in the field of fisheries or their territorial subdivisions that limit the activities of the audited state body;
- 5) to record the process of conducting an inspection or remote control, as well as individual actions of the official carried out by him/her within the framework of the inspection or remote control, using audio and video equipment, without creating obstacles to the activities of the official.
- 18. The inspected state bodies or their authorized representatives, when conducting an inspection, shall be obliged to:
- 1) ensure unhindered access of officials of the department of the authorized body or the department of the authorized body in the field of fisheries or their territorial subdivisions to the territory and premises of the inspected state body;
- 2) in compliance with the requirements for the protection of commercial, tax or other secrecy protected by the Law of the Republic of Kazakhstan, submit documents to officials of the department of the authorized body or the department of the authorized body in the field of fisheries (information) on paper and electronic media or copies thereof for inclusion in the conclusion on the results of verification or remote control, as well as access to automated databases (information systems) in accordance with the subject of verification or remote control;
- 3) make a note on receipt of the order of an inspection appointment on the day the inspection starts and of the conclusion on the results of the inspection or remote control on the day of their completion;
- 4) prevent changes and additions to the documents being inspected during the inspection or remote monitoring period, unless otherwise provided by this Law or other laws of the Republic of Kazakhstan;
- 5) ensure the presence of the head or his authorized person at the location of the inspected state body during the appointed inspection periods.
- 19. If, as a result of the verification, the fact of violation by the inspected state body of the requirements in the field of protection is revealed, reproduction and use of wildlife with sufficient data indicating signs of an administrative offense, Officials of the department of the authorized body or the department of the authorized body in the field of fisheries or their territorial subdivisions, within the limits of their powers, take measures to bring individuals who committed violations to responsibility established by the Laws of the Republic of Kazakhstan.

In cases of obstruction of the access of an official of the department of the authorized body or the department of the authorized body in the field of fisheries or their territorial subdivisions, which shall carry out the audit, to the materials necessary for the audit, or the provision of inaccurate information, non-fulfillment or improper fulfillment of legal requirements to eliminate violations, measures shall be taken to bring individuals who committed violations to responsibility established by the Laws of the Republic of Kazakhstan.

Footnote. Chapter 10 has been supplemented by Article 49-3 in accordance with the Law of the Republic of Kazakhstan dated 06.04.2024 № 71-VIII (shall be enforced upon expiry of sixty calendar days after the date of its first official publication); as amended by the Law of the Republic of Kazakhstan dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 50. The objects of the state control and supervision in the field of protection, reproduction and use of animal world

The objects of the state control and supervision in the field of protection, reproduction and use of animal world shall be:

- 1) the animal world and its habitat;
- 2) conditions for the keeping, captive and semi-free breeding of rare and endangered animal species and species subject to the Convention on International Trade in Endangered Species of Wild Fauna and Flora;
 - 3) tools, methods and (or) ways of obtaining objects of the animal world;
 - 4) extracted products of animal world;
- 5) documentation confirming the right to use the animal wildlife (certificate of a hunter and (or) fisherman, agreements for hunting, fishing, hunting, agreement, permission to use the animal wildlife and permission to use fish resources and other aquatic animals, voucher, fishing log);
 - 6) an activity on protection, reproduction and use of animal world;
- 7) regulatory documentation in the field of protection, reproduction and use of animal world;
 - 8) an activity, having an impact on the animal world and its habitat.

Footnote. Article 50 as amended by the Laws of the Republic of Kazakhstan dated 21.01.2010 № 242-IV (the order of enforcement sees Article 2); or 25.01.2012 № 548-IV (shall be enforced upon expiry of ten calendar days after its first official publication); dated 15. 06. 2017 № 73-VI (shall be enforced upon expiry of ten calendar days after its first official publication); dated 28.10.2019 № 268-VI (shall be enforced upon expiry of ten calendar days after the day of its first official publication); № 34-VII of 30.04.2021 (shall come into force ten calendar days after the date of its first official publication); dated 12.06.2025 № 194-VIII (shall enter into force upon expiry of ten calendar days after the day of its first official publication).

Article 51. The civil servants, carrying out the state control and supervision in the field of protection, reproduction and use of animal world

1. The head of the department of the authorized body shall be the chief state inspector for protection of animal world of the Republic of Kazakhstan at the same time.

The head of the department of the authorized body in the field of fisheries shall be simultaneously the chief state inspector for the protection of fish resources and other aquatic animals of the Republic of Kazakhstan.

2. The deputies of the head of the department of the authorized body, who are responsible for regulation, control and supervision in the field of protection, reproduction and use of animal world, at the same time shall be deputies of the chief state inspector for protection of animal world of the Republic of Kazakhstan.
